## WILL NOT PRESENT PACT AT THIS TIME

President Will Withhold Submission  
of Defense Agreement Until  
After Speaking Tour.

### WILSON FORCES ADAMANT

Administration Fight is Still For  
Unqualified Endorsement of  
Treaty and League.

(By United Press.)

Washington, July 25.—President Wilson plans to present the Anglo-French-American defensive agreement to the senate after he has finished his speaking tour for the league of nations, it was stated at the White House today.

The president is preparing an address to be delivered when the pact is presented, it was said.

Developments in the peace treaty fight today indicated President Wilson is abandoning his conciliatory attitude toward congress.

The resolution which Senator Lodge offered yesterday in the senate, asking Wilson to produce the British-French-American defense agreement, met with rebuff at the White House today, although no vote was taken on it by the senate. It was stated at the White House that Wilson would not take this document to the capital until he returned from his speaking tour.

For a time it looked as if this would be permitted, but preparations are being made for a start within a fortnight for this offensive into the home states of his opponents in the senate. When rumors of the new conciliatory attitude toward congress became manifest, it appeared his speaking tour might be abandoned.

Significance is attached to the fact that Senator Spencer, one of those called to the White House, was one of the first senators to learn of Tatt's proposal of reservation in the league of nations. It is considered likely that the president will discuss Tatt's proposal with him.

While senate administration leaders today declared William Howard Taft's suggestion of reservations will have no effect on the treaty fight, senators advocating reservations said the former president's attitude will convince the country as nothing could of the absolute need for reservations.

The administration fight, Senator Hitchcock said today, remains just as it had been—a fight for unqualified endorsement of every word of the treaty and the league of nations.

## ADMITS POSSIBILITY OF THEIR ADOPTION

Senator Pittman Says if Reservations  
Are Accepted, They Will  
be Sanctioned by Others.

### PREDICTS FAVORABLE VOTE

Washington, July 25.—Admitting the possibility that the senate may adopt the reservations to the peace treaty, Senator Pittman, Nevada, in a speech to the senate today, declared the treaty's fate rests in the hands of those demanding interpretation and explanations.

He stated that "if reservations may be made, we have the right to feel certain that they will be accepted by all other nations without involving a re-opening of the whole matter of peace negotiations. In my opinion, such reservations will be approved by two-thirds of the senate."

"The vital question is whether qualifications of the peace treaty will send it back for re-negotiations and if so, what the probable results of such action will be," he declared.

## HOGS BRING RECORD PRICE

Edmund Gartin Sells 60 Head at Top  
of Market, \$23.50

With sixty head on the market yesterday, Edmund Gartin of this county received the highest price ever paid for Rush county hogs on the Indianapolis market.

The sixty head, brought the top of the market, \$23.50, which is the record for the Indianapolis market to date, but many farmers predict that hogs will go to \$25.00 by the first of September. Mr. Gartin's hogs yielded \$4,311.16, which made the average better than \$70.00 a head. It was recalled by some farmers today that a good cow could be bought for less than this amount a few years ago.

## FIRST STRIKE OF AVIATORS BEGINS

Pilots Refuse to Carry Mail Until  
Two Who Were Discharged  
Are Reinstated.

### COMPLAIN OF CONDITIONS

Allege Machines Are Unsafe and  
That They Have Been Denied  
Safety Appliances.

(By United Press.)

Washington, July 25.—The postal aviators flying from Washington to New York, left Washington at 11 o'clock this morning, 30 minutes behind schedule, postoffice officials declared today. Officials also said planes flying from Chicago to Cleveland would leave on time.

New York, July 25.—The first aviators strike began here today when none of the aerial mail pilots appeared at Belmont Park, Long Island, to take out the Washington and Chicago mail.

Notices had been served on the second assistant postmaster general, Otto Praeger, by pilots employed in the aerial mail service that unless two recently discharged pilots were reinstated they would refuse to take their planes out this morning.

Postoffice authorities at the aviation field denied information to newspaper men and refused any information concerning department plans for meeting the situation.

The striking pilots expressed the belief that comrades of Cleveland, Chicago and Bellefont, Pa., would join them.

The type of planes furnished them constituted the chief grievance of the strikers. Scores of accidents, resulting in two pilots being killed and much damage done, were attributed to the fact that they were forced to fly in bad weather with faulty machines.

The discharged men are Leon Smith and Hamilton Lee. They also declared that the machines assigned to them were in dangerous condition.

The pilots also have other grievances, alleging their machines are unsafe, that they have been refused necessary safety appliances and that they are given the same pay as mechanics who do not risk their lives.

The aviators were confident their strike would tie up both the New York-Washington and New York-Bellefont-Cleveland-Chicago routes.

The aviators, most of whom are former army flyers, asserted that since July 15, when a series of heavy rains began, there have been fifteen accidents, two of which resulted fatally for pilot McCusker and pilot Sanborn. They said that their present machines have a minimum speed of 100 miles an hour, and that "low visibility" is "dangerous to both pilots and public." They ask slower and more stable machines.

A protest against the discharge of

## GARTIN RETURNS WITHOUT HIS CAR

He Found it, However, at Greeneville, Tenn., and Sold it to the  
Chief of Police.

### KNOCKED OFF THE \$50 REWARD

Machine Had Been so Badly Abused  
That he Decided not to Attempt  
Driving it Back

The two Ford touring cars, which have been the topic of much comment for the last three or four weeks, are now safely disposed of, and the chief of police at Greeneville, Tenn., is the proud owner of one flier and the Franklin man has his safely put away in his garage in Franklin.

Mr. and Mrs. John Gartin returned home last night, after going to the Tennessee town to bring back their Ford which was stolen over a month ago. When they arrived there and took a look at the machine, they decided that the best thing to do would be to come back on the train. The chief of police had been so accommodating, having earned his \$50 reward, that Mr. Gartin just sold the machine to him, minus the \$50, with some extra coin to boot.

It is said the Jeffrey brothers sold the Franklin Ford for \$450 to a man living near Greeneville, and that this person was out that much money. When they sold the machine, they left for unknown places, but are thought to be in Virginia, and the authorities there are still after the men.

By the time that Mr. and Mrs. Gartin arrived in Greeneville, the Johnson county sheriff and the owner of the other car, had started for home, so by now the machine is in Franklin.

Mr. Gartin said that he hardly recognized the machine as being his, as it was badly battered and had been abused to such an extent, that the newness had been completely worn off.

Mr. Gartin stated that his car was recovered in the mountains last Friday when the Jeffrey boys abandoned it when the chase became too warm for them. The police had been hot on their trail all day, having fired at them several times. The Jeffrey boys escaped under the undergrowth at the side of the road.

The loot found in the machine by the police indicated that the former Rushville boys had robbed a hardware store, Mr. Gartin said. The back seat was loaded full of merchandise taken from a hardware store, including several boxes of bolts, a large number of monkey wrenches and about a hundred feet of inch rope.

Mr. Gartin declared that the Jeffreys were known to the police, having lived in Tennessee six years ago, previous to the time they moved to Rushville.

So endeth the long, drawn-out case of the two stolen automobiles, but the three men may be heard of again.

## BILL GOES TO PRESIDENT

Agriculture Measure Minus Daylight  
Repeal Ready For Signature

Washington, July 25.—The house late yesterday passed the agricultural appropriation bill, after adopting the senate amendment permitting homesteaders to leave their farms during droughts without losing any of their rights.

The bill is without the daylight saving repeal rider, which caused the presidential veto of the original bill, and now goes to the President for signature. It is the last of the regular appropriation bills.

## NO AFFIDAVITS IN SMITH CASE

Husband and Wife, Who Have Fistic  
Combat at Milroy, Fail to Carry  
out Their Threats.

### APPEAL TO AUTHORITIES

Former Soldier Still at Garage he  
Was Ordered to Vacate—Wife  
Goes to Indianapolis

The town of Milroy ran high with excitement yesterday afternoon, when C. C. Jeffrey-Smith, a garage owner, drove into the town, with his wife bound hand and foot, tied to the rear seat of the automobile. According to the town gossip, the couple had been having trouble, and it broke out again yesterday.

Jeffrey-Smith is a native Frenchman, and has been in the garage business in Milroy for the last three months, occupying a business room owned by Frank McCorkle. The scandal seems to have started in Milroy some weeks ago, when Smith took Mrs. Fred Nichols a ride in his automobile, and it is said that they were seen together often in the machine later.

It seems that yesterday afternoon Mr. and Mrs. Smith were riding in the country, with Mrs. Smith on the back seat, and she suddenly threw a wire rope around his neck, drawing it tightly. The machine almost ran over an embankment, but Smith freed himself before any great damage was done. Mrs. Smith succeeded in getting a package of letters out of his coat pocket, which she threw in a stream, saying at the time that the letters would not figure in court.

It was at this time that Smith tied his wife hand and foot and started back to Milroy. Commenting on the affair, the Milroy Press says:

"He does not deny—but rather admits—that he bit her arms and otherwise treated her roughly in the scrap. He claims that he tied her because he was afraid to try to drive the machine into town with her free to do what she might wish to.

In making a search for the package of letters, he found they had not fallen into the water and he recovered them.

Smith displays welts about his throat, showing that his neck has been bruised in some way.

After driving to the doctor's office, he phoned his lawyer at Rushville, asking instructions. He says his lawyer advised him to untie the cord and let his wife free to come to Rushville and swear out a warrant for her arrest on a charge of attempted murder.

He said at the noon hour that he would go to Rushville early this afternoon and do as his lawyer had advised. At the same time his wife was attempting to get to the county seat to also swear out a warrant for the arrest of her husband. She had phoned the sheriff's office but was advised that it was necessary for her to come in person to transact the business."

Shortly after dinner yesterday afternoon, Mrs. Smith called Sheriff Jones, asking that he arrest her husband, but Mr. Jones told her that she would have to come to Rushville, and file an affidavit. Mr. Jones stated this morning that she never appeared, and the matter had been dropped as far as he was concerned.

Mr. Smith telephoned Prosecutor Stevens late yesterday afternoon, as Stevens was getting ready to go to Carthage on business, and nothing was done at that time. Smith, however, came to Rushville last night to consult with Stevens, but no affidavits were filed. Smith wanted protection from any mob which might be formed in Milroy, but Prosecutor Stevens told the man, that if he was ordered out of the town, that the

## OFFENSIVE IS IMMINENT

Allied Army Prepares Movement  
Against Hungarian Reds

(By United Press.)

Vienna, July 25.—Start of the allied offensive against the Hungarian Red army appears imminent today. A number of allied officers inspected the Hungarian White army with a view to co-operation. The White commander received the entente officers who later went to the front, in the region of the Tisza river where the Reds are now attacking the Roumanians.

The Hungarian Red army which allied forces are expected to engage consists of eight divisions totaling 60,000 front line and 100,000 reserve troops. There are also 1,000 cavalrymen.

## SCORES FROM THIS COUNTY TO ATTEND

Republicans Are Making Arrangements  
to be Present at State  
Editorial Meeting

### TO BE IN NATURE OF A PICNIC

Interest in Event Increased by Announcement That Hays May  
Announce Candidacy

Scores of republicans in this county are preparing to attend the mid-summer meeting of the Indiana Republican Editorial association, next Friday, at Magnesia Springs, near Brookville. Many will go in automobiles and others will travel by interurban to Connersville and take a special Big Four train to Brookville, which will be run from Cambridge City.

Interest in the meeting was increased today with the announcement that Will H. Hays, republican national chairman and former state chairman, would probably announce his candidacy for governor on the republican ticket. Local republicans have been expecting such an announcement from Mr. Hays, because he has been sounding out party workers all over the state regarding his proposed candidacy.

Due to the proximity of the meeting place and the fact that Miss Mary Sleeth of this city, chairman of the republican women's organization of the county, will represent the women of the district at the meeting, the attendance from here is expected to be unusually large.

Fon Riggs, republican county chairman, emphasized today the point that the meeting is not only for Republican men, but for their wives and children as well, especially their wives, because of the prospect of women being given the right of franchise by amendment of the United States constitution. Indiana women already have the privilege to vote for president in the next election, under a state law. Mr. Riggs pointed out that the meeting will be in the nature of picnic and urged republicans all over the county to make the day over for an outing. The Springs are in easy motoring distance and the place is ideal for picnicking. Although a fried chicken dinner will be served at the Springs, anyone has the privilege of taking a picnic dinner along.

The special train will start at Cambridge City at ten o'clock and will be boarded there by a large Wayne county delegation, which will boost the candidacy of Lew Bowman of Richmond, for the republican nomination for state auditor. The Richmond crowd will bring a band and will be headed by Major Paul Comstock, son of the late Congressman Comstock. The train will pick up two extra coaches in Con-

## SITE NEAR THIS CITY CONSIDERED

Seven Day Adventists Have Rushville  
Under Consideration in  
Selecting College Location

### WANTED ONE WEST OF CITY

No 80-Acre Tracts There Are Available—Old Fair Grounds Suggested as a Site

That the Seven Day Adventists have been considering Rushville as a site for their college, was disclosed today by a local real estate man, who said he had been corresponding with representatives of the college regarding location of the school here.

The college authorities have under consideration three sites near Anderson, but it is understood here that none has been selected and that there is still a chance to locate the college, providing a suitable location can be provided here.

The representatives of the school who made a quite investigation here to see if the location would be suitable, took up with the real estate dealer the question of buying eighty acres of land near Rushville. They said that they preferred to locate the school just a short distance west of the city, along the Indianapolis and Cincinnati Traction line.

The real estate agent interviewed all the land owners along the interurban line for a few miles west, but could not find one who was willing to sell a strip of eighty acres by the traction line. The agent was notified the college authorities that a site west of Rushville is not available.

It was suggested that the old fair grounds, which the county commissioners bought with the belief that it would make an ideal location for a county hospital, might be sold to the college authorities, if they were willing to go east of Rushville. They will be advised of this opportunity and negotiations between them and the commissioners may be started, provided they are willing to consider a site a short distance east of Rushville, which apparently would meet their requirements as well as a tract of land west of the city.

There are only twenty-five acres and a fraction of land in the old fair grounds, but the county owns some land, a part of the poor farm north of the traction line, which the commissioners might be induced

## COMMISSION TO FIX AMOUNT OF DAMAGES

Goodyear Tire & Rubber Co. Agrees  
To Pay Families of Dead and  
Injured in Blimp Disaster

### WILL AVOID COURT ACTION

(By United Press.)

Chicago, July 25.—A new departure in settlement outside of court for damages done in the great disaster was seen today in the announcement of officials of the Goodyear Tire and Rubber company that a commission of Chicago people had been named to fix amounts to be paid families of the 39 dead and injured in the recent blimp tragedy here.

The announcement was made by the vice-president of the tire company, who declared the company will pay without resistance any amount the commission decided on.

Families, however, are not required to accept the amount but have the opportunity offered to save tedious court proceedings.

Representing the perfection of engineering ideas many years ahead of other cars, the Essex is new, different and exclusive, the result of advanced design and fine quality.

The Essex is the only high grade automobile on the market today selling for less than \$2,000. It is the only car combining extreme economy of operation with power, comfort and durability. Possessing the luxury and performance of the most costly cars, it has the further advantage of much greater economy.

Since the very first day of its introduction to the public there have never been enough Essex cars to meet the demand. Despite the tremendous increase in production, dealers all over the country have been forced to establish waiting lists. We are filling orders in the same sequence as they are received. To avoid possible disappointment you should place your order now.

## ANNIVERSARY OF TRAGEDY AT MILOY

On July 24 Thirty-Five Years Ago Three Men Were Killed and Many Injured in Explosion

### BOILER OF ENGINE LET GO

It was recalled yesterday that July 24, according to the Milroy Press, was the thirty-fifth anniversary of a tragedy that cost the lives of three Milroy men when a boiler of a steam engine exploded while threshing on the Joseph Hall farm north of Milroy.

Two of those who were killed outright and the third lived only a few hours, the funeral for all three being held the same day. Those who were instantly killed were Dave Henderson, brother of Joe Allen Henderson; Eugene Swain, brother of Mrs. W. W. Barton, Everett Swain and Alfred Swain, the latter now living in Seattle and Marshall Noy Innis, brother of Wade Innis of Milroy.

Hatch Innis was badly scalded and several others received minor wounds. Robert Tompkins, now of Rushville, was picked up and carried over to an adjoining potato patch without a scratch.

The whole community was greatly excited at the news, and the whole town rushed madly to the scene. Ed Darnell, a brother of Sam Darnell, did not wait to saddle or bridle a horse, but jumped onto one and dashed into town to call for help.

At that time William Barton was conducting a drug store in the room now occupied by The Press. In those days whiskey was kept in stock by the barrel, and Mr. Barton recalled today that people desiring to offer aid to the injured came in with pails and fling their buckets rushed wildly to the scene. Whiskey then was considered a first-aid remedy for any injury or ailment.

Eugene Swain, brother of one of the men killed, quit the threshing outfit the day before because he believed the engine unsafe.

Some may think cows sell high here, but in Europe it is not so much a question of money as it is finding cows that are for sale. The few that sell "over there" do sell high.

nersville and will not leave there until eleven o'clock. The train will be held there for the accommodation of persons reaching Connersville on the 10:44 I. & C. car. Under this arrangement, it will be possible to leave here over the I. & C. at 10:07 and get to Brookville on the special train.

Will H. Hays, will be the headliner. He is expected to discuss party issues at the afternoon session of the editors. Mr. Hays' presence is expected to attract political workers from over the state who will mingle with the newspaper men.

Paul Comstock, who recently returned after a long period of service in France also will speak.

Miss Sleeth will represent the Republican women on the program. She expects other county women workers of the district to be present. "to get a line on the situation."

State officials, including Governor James P. Goodrich, William A. Roush, secretary of state, Otto Klaus, auditor, and his deputy, L. S. Bowman, Uz McMurtrie, treasurer; Patrick J. Lynch, clerk of the supreme court, Will H. Adams, reporter to the supreme court, and others are arranging to attend the meeting.

## NO AFFIDAVITS IN SMITH CASE

Continued from Page One.

best thing for him to do, was to stay away. Stevens also told him that the town would be a great deal better off, if both of them would leave the country.

The excitement had died down in Milroy today, following the departure of Mrs. Smith for Indianapolis last night, and Smith was still in possession of the McCorkle room which he uses for a garage.

Mr. Stevens said this morning that Smith had prints on his neck to show that he was handled roughly, but did not file any affidavit against his wife, asking that Stevens do the filing, which he refused to do.

Smith is a returned soldier, having served for several months in France, and after being discharged, went to Clarksburg, where he and his wife lived, until three months when they moved to Milroy. Speaking further of the case, and about Mr. McCorkle's attitude, the Press continued:

Mrs. Smith claims that her husband has been intimate with other women, and he in turn charges that she was unfaithful. He claims to have in his possession letters which his wife wrote other men during his service in France, as well as since he has been in Milroy.

Frank McCorkle, who owns the building in which Smith has been conducting a successful garage and repair shop, upon learning of the trouble today, gave Smith orders to vacate at once. In his talk, McCorkle painted a horrible picture of the Frenchman and advised him to leave town, at the same time giving a hint to the crowd that gathered to take the matter of his leaving at once into his own hands.

Smith made an unsuccessful effort to explain things to McCorkle, whose parting word was to "Get your tools and leave as soon as the Lord will let you".

The scandal seems to have gathered Milroy into its field of action some weeks ago when Smith and Mrs. Freda Nichols took a ride in the car. Mrs. Smith appeared in town the next day from Indianapolis, their former home, and threatened to shoot Mrs. Nichols. The trouble seems to have died somewhat until a few days later when it is said that Smith and Mrs. Nichols, again were seen together in the machine.

Smith does not deny his having been with Mrs. Nichols, but claims that he was merely giving her "a lift" in other words overtaking her and asking her to ride as a favor.

Smith says he has been trying every way he knew of to persuade his wife to leave him, having, he says, prepared to sue for divorce, which can not be acted upon until he has been a resident for six months.

The couple have been living in the same house, but they say they were never together, living in separate rooms, during their residence in Milroy.

## This is the open season for stains

Dad acquires grease from the lawn mower and motor car. A splash of strawberry or blackberry sundae mars Daughter's middy. Towser prances with oily feet on Son's shirt or trousers. Fruit juices tint Mother's table linen and best dresses.

to sell, it is said. If they would not it is stated that the owner of the farm adjoining on the west would be willing to part with some, which could be added to the fair ground site. Many who heard the suggestion believed that the old fair grounds would make an ideal college site. The soil is especially suitable for garden truck, which would be the main use to which the farm would be put by the college.

### WILL NOT PRESENT PACT AT THIS TIME

Continued from Page One

While the pact move continued today to hold senatorial interest, there was also much discussion of the new clash between republican senators and President Wilson over his failure to submit the special French treaty and to answer three senate resolutions asking for information about the peace treaty. The foreign relations committee today continued reading the treaty. The reading will be finished, at the present rate, early next week.

### Personal Points

—Mrs. Louis Fritts spent the day with friends in Indianapolis.

—Mrs. J. W. Worden of Shelbyville spent yesterday with relatives in this city.

—Dr. D. D. Dragoo was in Osgood yesterday, where he attended the Ripley county fair.

—Mrs. Ralph Harrold of Newcastle came yesterday for a visit of several days with relatives here.

—Mrs. Horace Ingram of Chicago came today for a visit with her parents, Mr. and Mrs. J. W. Hogsett.

—Miss Sylvia Mullins returned today from Muncie, where she has completed her course in the Normal college of that place.

—Mr. and Mrs. T. J. Downey left yesterday for a trip through the west. They expect to visit Yellowstone Park and other places of interest.

—Mrs. N. O. Pittenger of Bloomington, Ind., who has been visiting her mother at Connersville, spent the day here as the guest of Mrs. R. E. Harrold.

### U. S. "RIM" FLIGHT IS RESUMED TODAY

Army Plane Departs From Mineola, N. Y. on Next Leg of The Journey to Augusta, Maine

#### SHIP IS REPAIRED IN AIR

(By United Press.)

Augusta, Me., July 25.—Lt. Col. Hartz and corps of four men arrived here at 1:05 today, completing the second leg of the journey around the boundary of the United States in a Martin bombing plane.

The plane left Mineola at 8:25 this morning and after an uneventful flight, landed here without a mishap.

Mineola, N. Y., July 25.—Lieutenant-Colonel R. S. Hartz who, with a crew of four men, is making an 8,000-mile trip around the rim of the country in a Martin bombing plane, left here at 8:25 o'clock this morning on the flight to Augusta, Me.

Colonel Hartz arrived here from Washington yesterday, on the first leg of the flight making the trip in two hours and forty-seven minutes. A leak developed in the water tank, but this was repaired while the plane was flying at a height of 5,000 feet over Baltimore.

The next leg of the flight around the country is from Augusta to Cleveland, a distance of 660 miles.

#### TO BE PHYSICAL DIRECTOR.

Miss Phoebe Bentley of Greensburg, who recently graduated from the American School of Gymnastics at Indianapolis, has accepted a position as physical director in the public schools of this city, according to an announcement made today.

### SAYS LOCAL PRODUCT IS BELOW STANDARD

Food and Drug Commissioner Names George Harrell as Not Meeting Requirements

#### MANUFACTURES ICE CREAM

Ice cream manufactured by George Harrell, 221 North Morgan street, is below the standard required, according to Harry E. Barnard, state food and drug commissioner. Other ice cream made and sold here was found to be up to the standard, in an inspection made last Thursday by a representative of the state department.

Condemnation orders have been issued against all delinquent manufacturers in the state, it was announced by Mr. Barnard in Indianapolis yesterday, and prosecution will be started if more samples show less than the Indiana standard of eight percent butterfat.

The inspector found Charles J. Caron's ice cream contained 9.7 percent butterfat, and Mr. Caron said it was usually run above this percent. F. E. Wolcott uses Caron's ice cream and the Greeks use Indianapolis ice cream which is up to standard. The report also said Harrell was using raw material in violation of the law, which requires all cream used in the manufacture of ice cream shall be pasteurized.

### WILL INVESTIGATE BUYING

Federal Trade Commission to Inquire Into Packers Methods.

Washington, July 25.—The senate today directed the federal trade commission to make immediate investigation of the packers' methods in the buying of cattle and hogs.

The investigation is provided for in a resolution introduced by Senator Harris, Georgia, former chairman of the federal trade commission which was adopted without a roll call today.

### FIRST STRIKE OF AVIATORS BEGINS

Continued from Page One  
The two pilots gave Mr. Praeger twenty-four hours to make known his decision. Mr. Praeger in his reply, which was received by the aviators last night, announced that the orders discharging the two men had not been revoked.

They came into the service," Mr. Praeger's telegram said, "as every other pilot with the knowledge that they must comply with the department's orders to fly with the mail and where flying conditions are such that they can not operate they have the option to resign."

Aviators of mail planes at Chicago, Cleveland and Bellefonte have joined in the strike, according to local aviators.

The Sullivan county boy who is worth \$2,000 after two years as a member of a pure-bred pig club will no longer question the value of club work.

**Will H. Hays' Hat**

Indications are that Will H. Hays of Indiana, who was so eminently successful as republican state chairman and has made such a good job of the national chairmanship since his election to that important post, will toss his hat into the ring at the mid-summer meeting of the Indiana Republican Editorial Association at Magnesia Springs next Friday. Prognosticators say that he will be a candidate for the nomination for governor and all signs indicate that they are not far wrong.

Many republicans are of the opinion that Mr. Hays should not take the step at this time, but that he should complete the job which he has started so auspiciously. There is none to deny that he has made a success of the national chairmanship and has done more than any one man to weld together the discordant elements in the republican party. Under his leadership, republicans here feel that the national campaign of 1920 which would have much better chances of success than with any other man at the helm.

Mr. Hays has been sounding out party workers in Rush county regarding his proposed candidacy for governor, and a great number of them, in their replies, have been very frank with him. They have told him that he is so well fitted for the position he now holds that he should continue through the next presidential campaign.

Republicans throughout the United States have been pinning their faith in Will Hays to elect the republican ticket in 1920. He has performed in the past in such a fashion that republicans everywhere have been drawn to him as the logical leader. Mr. Hays' record in Indiana also, instilled loyalty for him in the hearts of republicans everywhere.

Representatives propose that the tons of food which the war department has on hand be sold to the people as one means of reducing the high cost of living. The scheme would be feasible if there were a ton for everyone.

The dirigible which fell through the skylight of a Chicago business building did almost as much damage as a German Zeppelin would have done to New York, in the days when Germany had visions of world domination.

The name, Magnesia Springs,

**New Chemical Kills Bed Bugs P. D. Q.**

The new golden colored chemical Pesky Devil Quicker, P. D. Q. can now be had at any drug store, as arrangements have been made whereby the retailer can get it from his wholesaler.

The new chemical, P. D. Q., is very powerful. A couple of ounces can be procured for a few cents and you'll have enough to kill a million bed bugs if you could get that many together. P. D. Q. does not rot or burn the springs or clothing. It leaves a coating on their eggs and prevents hatching.

P. D. Q. if properly used, rids the house entirely of the bed bugs, ants, roaches and fleas. Safe to use to rid your pet dog of fleas.

A patent spout free in every package of P. D. Q., enabling you to get the pesky insects in the hard-to-get at places.

Have your Automobile Body and Fenders repaired and save 50 to 70 per cent. Strictly high class work done. Special bodies and alteration work.

Wilson proposes, the senate approves and the press exposes.

**CANNING PAYS FOR BOOK AND SHOES**

Knowledge of how to can products that will command a ready sale is enabling a mother in the hills of Albemarle County, Virginia, to keep her ten children in school. School-books and clothes cost money, but this ambitious mother was determined that her children should be educated. The coming of the home-demonstration agent of the United States Department of Agriculture and the State college to her neighborhood showed her a way of earning money by canning for market. Not only do home-demonstration agents in Virginia teach the women how to can successfully, but they help them sell their surplus canned products.

Late in the fall, with a two-horse wagon loaded with her canned fruit and vegetables, this woman of the hills drove 20 miles to the home-demonstration agent's headquarters with 39 gallons of apple butter, 376 quarts of canned tomatoes, 3 quarts of ripe tomato catsup, 8 quarts of green tomato catsup, 12 quarts of okra, 12 quarts of fox-grape preserves, 43 No. 2 cans of string beans, 36 No. 2 cans of corn, 48 quarts of canned peaches, 48 quarts of canned blackberries, 12 quarts of butter beans, 12 quarts of canned squash, 2 quarts of damson preserves, and 8 quarts of green tomato mincemeat. Through the efforts of the home-demonstration agent the wagon was emptied in a short time in the university town, and the little boys and girls up in the hills had shoes and school books during the winter.

It is easier to make jellies, jams and marmalade in the winter than during the hot and busy summer months. Can the fruit and at your leisure turn it into the dainties that take time to make.

A baby girl weighing eight and three-quarters pounds was born to the wife of Frank Logan, at their home near Gings, yesterday.

**A GIGANTIC BONE IS FOUND IN CLAY**

Belong to Some of the Prehistoric Animals Which Roamed The Earth Years Ago

**OTHER RELICS TOO ARE DUG UP**

Found Near the Old Tile Factory Near Connersville by A. Fries Who Was Digging in Clay

At the Fries factory, west of Connersville, A. Fries yesterday uncovered another of many evidences of a prehistoric life thereabout—a relic of an old past which impressed him strongly. He was scraping up clay with a horse-drawn scraper, when the big scoop turned over and broke off a bone. It was no little whippet of osseous tissue, but a giant, five feet long and seven inches through. So gone to pieces with age was it that the bit of the scraper cut through it as it would cut through punk, and though Mr. Fries dug up the whole object, he had not more than time to observe its length and diameter when it fell into fragments, under the action of the air.

This is not the first significant find which Mr. Fries or his men have made in the low swale, west of the tile works, where they pit their clay. They have found other huge bones, in a radius of twenty yards. They have found teeth, some of them longer than the teeth of a farm harrow. The teeth are sounder than the other bones.

These relics undoubtedly belonged to some huge creature which was one of a specie that lived among the swamps and forests of this region at a time so remote that human history does not furnish a rule to measure it with. Just what the monster was the naturalists probably decide, but hereabout the matter is by no means clear. It is the geological evidence that, in the vicinity of the Fries plant, there was even within the recollection of men, a pretty large lake, black with wild fowl and teeming with aquatic life. But that this lake had anything to do with the monster whose bones are being exhumed is not to be supposed. It, more probably was one of a race of mammoth quadrupeds, eight, ages before, when the glaciers, like gigantic jackplanes, came scooting this way and played such havoc with the warm-weather things which lived here.

**LEARN HOW TO CAN**

This article is the first in a series on food conservation prepared by the United States Department of Agriculture. Complete illustrated instructions for canning, drying, brining, pickling, preserving and jelly making will be given in a forthcoming article. The directions will be simple and even those who have never canned before can do so with success if instructions are followed.

**Operation Not Successful.**

"16 years ago I was operated for appendicitis and later operated again for gall stones. Neither did me any good and I suffered all kinds of torture since. Five years ago I took Mayr's Wonderful Remedy and have felt no symptoms or pain since. All stomach sufferers should take it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For Sale by Druggists Everywhere.—(Adv.)

**Our Daily Laugh**

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

He was a bedraggled, weak looking man, with shiny elbows and shiny nether clothes, and he was herding a flock of children to the steps of a trolley car with a "shooing" motion such as a mother chicken uses in corralling her chicks. There were seven or eight children, active and inactive. Some hopped on, others fell on, others strange to say mounted the steps in polite manner. With a sigh the father produced a frazzled leather wallet swapped a baby to his left arm, decoyed a well flattened dollar bill to daylight and handed it to the conductor.

"How many?" quoth the strap yanker.

"Uh! Oh let us see. One, two—seven and one under age." Seven kids were up front. "Are they all yours, or is it a picnic?" The reply was sepulchral:

"They're all mine, friend, and it's no picnic."

Some persons misinterpreted a story printed in this column yesterday about a mythical "Pop Regan," thinking it referred to the late Timothy Regan, who was a C. I. & W. flagman here. It was merely a coincidence the names were the same as the stories are received by the Republican through a newspaper service at Bedford, Pa. Yarns submitted for the column are sent to Bedford and if accepted, the prize of \$1 is paid.

A prize of one dollar will be awarded for all funny stories which are accepted for this column. They should be brief and to the point.

**Amusements**

**"A Vagabond of France"**  
Henri Krauss will appear at the Mystic theater tomorrow in the splendid picture, "A Vagabond of France." There will also be a Toto comedy on the program, "The Great Water Peril."

**"Doug" Again Tonight.**  
One of the exciting episodes in Douglas Fairbanks' new picture, "The Knickerbocker Buckaroo," which will be shown at the Princess again tonight, is that of the screen athlete climbing out of a window of a speeding Pullman, continuing up to the roof of the car and running along on the top of the train, then jumping to the swinging arm of a water feeder from which he leaps onto the back of a horse. This is the start of a thrilling chase in which two hundred cowboys pursue Fairbanks for miles up into the hills.

Arrangements were made with the office of the Director-General of Railroads for the use of an entire train for the scene above described. An abandoned track in the San Fernando desert was selected for the location, because of the scenario demanding the desert atmosphere.

**Stock Company Coming**

The Mac Stock company will come here on Monday night for a week's engagement showing in their tent, on the old ball lot, in South Main street. The company this year is said to be better than ever before, and carries 22 people, with their special scenery. The company was formerly the Mac-Taff stock company but now each of the owners have their separate companies.

The opening play will be "The Girl from out Yonder", a four act comedy. The usual run of vaudeville will be staged between acts, and a jazz orchestra will furnish the music. The advance agent, Leon Spah, will be remembered by his Rushville friends, as having been with the Guy Plays for a number of years.

**TO PLAY G. AND J. TEAM**

## With The Churches

+Franklin Methodist—The usual services will be held at 3:00 p. m.

+St. Mary's Catholic church, the Rev. M. W. Lyons, pastor—Masses on Sunday at 7:00 and 9:00 a. m.; week days, 7:00 a. m.

+First Baptist church: Sunday school at 9:30 a. m.; public worship immediately following. Subject "God's Hand in Lives of Men." Union services in the evening at the First M. E. church.

+The unified service of the Main Street Christian church at 9:30 will be the only service of the day. At 8 the union service will be held in the M. E. church with the Rev. John T. Aikin delivering the message. Thursday evening service at 8 o'clock.

+First Presbyterian church—7 a. m. Quiet Hour; 9:15 a. m. Bible school; 10:30 a. m. Divine Worship, sermon by the pastor and special music. No evening service on account of union services at the St. Paul's M. E. church. Thursday evening 7:30 o'clock, prayer meeting.

+Arlington Methodist—Bible school at 9:30 a. m. The pastor will preach at 10:30 a. m. and 8 p. m. The opening exercises of the evening services will be conducted by the Epworth League. The last quarterly conference for this conference year will be held at Manilla Aug. 4, at 9:30 a. m.

+United Brethren—Services in the sheriff's office of the court house—Sunday school at 9:30 a. m.; preaching services at 10:30 a. m. and 8 p. m. Prayer meeting Wednesday evening at the home of Mrs. Ethel Cradley, 909 North Sexton street. All are cordially invited to these services.

+First United Presbyterian church—Bible school at 9:30 a. m.; public worship at 10:45 a. m.; Young people's meeting at 7 p. m. with Miss Goldie Cheek leader; at 8 o'clock in the evening the congregation will join in the union services at the St. Paul's M. E. church. Congregational prayer meeting on Thursday evening at 7:30 o'clock.

+St. Paul's M. E. church—Sunday school at 9:30 a. m.; morning worship at 10:30 a. m. sermon by the pastor, "Reasoning Up to God." Union preaching services in this church at 8 o'clock, sermon by the Rev. J. T. Aikin of the First United Presbyterian church. Prayer meeting, Thursday evening at 7:30 o'clock. A cordial invitation is extended to all.

+Salvation Army—Saturday evening, open air meeting at 7:30. Sunday morning a special consecration meeting will be held at 10:30 a. m. subject, "Saul, Winning on Active Service." 2 p. m. Sunday school. Evangelist Wainwright will talk to the school at the close; 7 p. m., open air meeting; 8 p. m. Big Salvation meeting which will be the first meeting of the revival the evangelist will conduct. Meetings every evening except Monday, beginning at 8 o'clock. Captain and Mrs. Tench, officers in charge.

## DINNER FOR COMMISSION

State Highway Plans May be Unfolded at Banquet Tonight

(By United Press.)

Indianapolis, Ind., July 25—Plans for Indiana's proposed highway system are expected to be unfolded by members of the state highway commission at a dinner given them and Governor Goodrich tonight by the Hoosier Motor Club. Lemuel P. Dobyns, chairman of the roads committee of the state senate, and Emsley W. Johnson, author of the county unit bill, are slated to address the meeting.

Automobile owners from several parts of the state also will attend the banquet.

## CASE POSTPONED

Perry Meeks, the Glenwood man, who was arrested on an affidavit filed by Charles Hammond, on a charge of carrying concealed and drawing deadly weapons, was to have been tried in the Connersville police court last night, but the case was postponed for a while, and the exact date is unknown.

## CATHOLIC CARNIVAL TO BE STAGED NEXT WEEK

Will be Held Only Two Days This Year—Not Given Last Year on Account of War.

WEDNESDAY AND THURSDAY

Announcement is made that the annual Midsummer Festival of St. Mary's church will be held again this year. The dates selected are Wednesday and Thursday nights of next week, July 30 and 31.

Beginning in a modest way, the annual carnivals conducted by the men of St. Mary's church, grew in proportions until they resembled a county fair and became a notable feature in the social life of the community.

Last year owing to the fact that the war was waging in all its intensity and so many of the young men of the parish were in the service of the country, the carnival was not held.

Now that most of the boys are back home they will again undertake to resume the Annual Festival, but along less elaborate lines. Many of the old features will be discontinued and the affair will be limited to two evenings. But the old spirit will prevail and every effort made to provide a delightful summer night's diversion.

The I. O. O. F. Band will re-organize for the occasion and provide stirring music each evening. Vaudeville shows will be given, there will be a Ham Tree, refreshments will be served and the ladies will conduct an exchange each evening as well as a Fancy Booth.

## ROBINSON ANALYZES SHANTUNG PROVISION

In Speech to Senate He States Japan Gets Control of 400 Sq. Mi. of the 55,900 in the Provision

RULES ONLY 165,000 CHINESE

(By United Press.)

Washington, July 25.—Senator Robinson, Ark., yesterday analyzed the Shantung provision of the peace treaty in a speech to the senate in which he said:

"That the Japanese gets control of only 400 square miles of the 55,900 in the Shantung provision, and will rule only about 165,000 Chinese out of the 400,000."

That China claims that they did not surrender sovereignty to Germany is belied by the terms of the treaty by which Germany took over Kiao-Chan.

That Japan is committed in writing and orally to the return of Shantung to China with certain conditions complied with.

## CRIME DOUBLED IN A YEAR

Records of U. S. District Attorney For Indiana Reveal This

(By United Press.)

Indianapolis, Ind., July 25—Crime in Indiana has increased one hundred percent during the year ending June 30 over the preceding year, according to information obtained today from the office of L. Ert Slaek United States district attorney for Indiana.

During the fiscal year ending June 30, 1918, criminal prosecutions were begun against 258 defendants in federal court and during the past fiscal year 659 criminal cases were started. Fines assessed in federal court during the two respective years totalled \$11,852 and \$53,466.

The Second M. E. church of Rushville will entertain Sunday July 27th at the Rush Co. Chautauqua grounds. The public is cordially invited. Interesting talks by Dr. H. W. Tate of Cincinnati. Morning services at 10:30, afternoon at 2 o'clock and evening at 7:30. Afternoon and evening program will consist of good singing by the Connersville and Rushville choirs, also special solos and jubilee songs. Chicken dinner will be served between 12 and 2 o'clock to the public, on the grounds. 11114

## Now Is a Good Time To Drive Out Catarrh

The Trouble Is in the Blood. Summer catarrh, with its nauseous discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter. That's why it is so important to treat catarrh with S. S. S. during warm weather.

It is now an established fact that catarrh is in the blood and that lotions and salves do not give relief. The experience of others has proven that S. S. S. strikes at the root of the trouble. Waste no time in this matter, for it is of the utmost importance. Write to our Medical Advisor about your case. Address: Swift Specific Co., Dept. 53, Atlanta, Ga.

## Facts What Is

Fattening swine gain more quickly at less cost when full fed on forage than when a partial ration is put before them. Besides, they are marketed at a better season.

Three bunches of 47 pound pigs were carried for 55 days respectively on alfalfa, clover and rape pastures, with no grain or commercial feeds. The alfalfa pigs gained 3½ pounds. The bunch fed on rape (an over-rated forage) made a ½ lb. increase. Of course, several of the pigs died. Those that survived were thin in flesh, with very low vitality. Any disease would have meant good-bye piggies.

It does not pay to underfeed.

It pays to feed Fat Back Hog Feed.

## BRITISH STATESMAN IS 71

Arthur Balfour, Foreign Secretary, Has Held Nearly Every Post

(By United Press.)

London, July 25 (By Mail)—Arthur James Balfour, Foreign Secretary and veteran British statesman, celebrates his 71st birthday today. Balfour has held practically every post in the British government, coming from the "hereditary legislator" Cecil family. He is a nephew of the late Marquis of Salisbury, whom he succeeded in the Premiership in 1902, holding the post until 1905.

One of the most brilliant and versatile men of his time, his admirers call him "Prince Arthur", from his courtly manner. Rivals call him "Pretty Fanny", but he has no real enemies.

Will H. McMillin, county auditor, is ill at his home near Gings and is unable to be at his office in the court house.

## MILLIONS Suffer from Acid-Stomach

Millions of people suffer year after year from ailments affecting practically every part of the body, never dreaming that their ill health can be traced directly to acid-stomach. Here is the reason: poor digestion means poor nourishment of the different organs and tissues of the body. The blood is impoverished—becomes weak, thin, sluggish. Ailments of many kinds spring from such conditions. Biliousness, rheumatism, lumbago, sciatica, general weakness, loss of power and energy, headache, insomnia, nervousness, mental depression—even more serious ailments such as catarrh and cancer of the stomach, intestinal ulcers, cirrhosis of the liver, heart trouble—all of these can often be traced directly to acid-stomach. Keep a sharp lookout for the first symptoms of acid-stomach—indigestion, heartburn, belching, food retching, that awful painful bloated, flat, resting, and sour, gassy stomach. EATONIC, the wonderful modern remedy for acid-stomach, is guaranteed to bring quick relief from these stomach miseries. Thousands say they never dreamed that anything could bring such speedy relief—and make them feel so much better in every way. Try EATONIC and you, too, will be just as enthusiastic in its praise. Make your life worth living—no aches or pains—no blues or melancholy—no more of that tired, listless feeling. Be well and strong. Get back your physical and mental punch, your vim, vigor and vitality. You will always be weak and ailing as long as you have acid-stomach. So get rid of it now. Take EATONIC Tablets—they taste good—you eat them like a bit of candy. Your druggist has EATONIC—50 cents for a big box, get a box from him today and if you are not satisfied he will refund your money.

## WOMEN TO LEARN TEAM WORK NOW

Economic Questions in Which They Have Not Been Interested They Must Now Give Study

### SENATOR WATSON IS JUBILANT

Considerable Credit Belongs to the Senator for His Astute Management of the Measure

Senator James E. Watson, United States senator from Indiana, and chairman of the Senate Woman Suffrage Committee, is jubilant at the success of the Republican party in putting through the federal suffrage amendment. Considerable credit belongs to the senator for his astute management of the measure on the floor, where it was fought by the opposition.

"The great block to woman suffrage has been the Southern Democrats," said Senator Watson. "The South unanimously opposes woman suffrage because they are afraid of the vote of the negro woman. States normally Republican have gradually conferred the right of suffrage on woman, and it was the vote of the West and the North that finally passed the measure through congress."

"What women want to learn in politics," continued the senator, "is organization, and to understand that each individual woman cannot have her way in everything pertaining to platform, nominations or the general work of the party. There must be team work. Men have learned that long ago. When women learn that and the power of organization they will be as strong as the men."

"On the great moral questions they are ready to vote without campaigns of instruction or campaigns to create enthusiasm, for women's intuitions are swifter and keener than men's on ethical matters. The economic questions in which they have not heretofore been greatly interested they must now give study. There is no doubt that women are as intelligent and as quickly understand problems when they study them as men. I believe the enfranchisement of women will result in the betterment of American politics, and that the evils that beset us will be the more quickly disposed of and that the many perplexing problems of this hour will be safely and sanely solved by reason or the moral and intellectual influence of the women voters being added to that of the men."

"One thing the women voters must remember, however—it is a lesson the men have already learned. They have got to bury past differences in order to achieve present ends. The man you fought on an issue yesterday may stand with you on the question you are fighting today. Forget personalities and fight for principles."

### MARINE STRIKE TO BE ENDED

New York, July 25.—Announcement of the settlement of the marine workers' strike was expected to be made today. Raymond B. Stevens, vice-chairman of the United States shipping board, who came here Monday, has had conferences with representatives of both the seamen and the operators and intimated that practically the only thing necessary to complete a compromise was the signatures.

## BANDITS DRESSED IN NAVAL UNIFORMS

Three Auto Bandits Hold up 3 Mile House Near Ft. Wayne But Are Captured

### ENTER PLACE IN DAYLIGHT

(By United Press.)

Fort Wayne, July 25.—Three auto bandits, dressed in naval uniforms, held up the Four Mile house, east of the city, this morning shortly after ten o'clock.

The place which is owned by Perry Conrad, is run as a general merchandise store.

Conrad not being at home, the men asked Mrs. Conrad for some cookies. When Mrs. Conrad turned her back, the men attacking the cash register. After taking much cash, they filled the machine with canned goods.

They were caught two hours later at VanWert, Ohio.

### BARN BURNS: LOSS \$8,000

Columbus, Ind., July 25.—Henry Marr, a farmer east of Columbus, suffered the loss, by fire, yesterday, of a large barn and contents, valued at \$8,000. The flames are supposed to have resulted from spontaneous combustion.

### SHIP QUERY IS ORDERED

Washington, July 25.—By unanimous vote, the house adopted a resolution providing for the appointment of a special committee to investigate activities of the shipping board and emergency fleet corporation with the view of determining how \$3,250,000,000 appropriated by the congress was expended.

## Society

Mrs. Bert Heaton desires to meet the social committee and officers of the Mission Band, of the Little Flat Rock Christian church in the Sunday school room immediately after church Sunday morning.

Sixteen card tables were in session last night at the card party given on the lawn of the Catholic church. Everyone present enjoyed the evening playing euchre. Refreshments were served at a late hour.

Mr. and Mrs. Ralph Miles, Mr. and Mrs. Eli Martin, Mr. and Mrs. John Nipp, Mr. and Mrs. Scott Hosier, Mr. and Mrs. Ed Pittman and Mr. and Mrs. Charles Green formed a party last evening and motored to Greensburg where they took supper.

Members of the Grand Club were entertained yesterday afternoon at the home of Mrs. A. L. Riggs, in North Perkins street. After spending the hours socially the hostess served a delicious luncheon. Two

guests were present, Mrs. Sarah Henley and Mrs. Donald Moore of Findlay, Ohio.

Mrs. Olive Haywood delightfully entertained a number of her friends and relatives at a dinner party yesterday at her home in West Third street. The table was centered with a bouquet of summer flowers and covers were laid for Mr. and Mrs. J. O. Draper, Mr. and Mrs. Noah Moore and family, and Mrs. Elizabeth Nelson, all of Arlington; Mrs. L. T. Trew of Beaver City, Oklahoma; Mrs. Marian Harris, of Indianapolis and Mrs. E. M. Phillips and Lowell Phillips of Morristown.

A beautiful one o'clock luncheon was given in the Social Club rooms in North Morgan street today at noon, following the initiation of the three pledges to the Psi Iota Xi sorority at 10:30 this morning at the home of Miss Ruth Innis in North Harrison street. The girls initiated were the Misses Lois Reeve, Dorothy Mulno and Dorothy Sparks. The four course dinner was served on small tables, which were attractively decorated with blue and yellow candles and bouquets of summer flowers. Pretty place cards marked the places for twenty-eight

## YOUNG FRIENDS IN SESSION

## NEBRASKA PROFESSOR GETS RARE DECORATION

M. M. Fogg, Instructor in Rhetoric at University of Nebraska Receives French Honor

ESTABLISHED BY NAPOLEON.

(By United Press.)

New York, July 25.—Prof. M. M. Fogg, professor of rhetoric in charge of journalism in the University of Nebraska, who recently returned from service in the Army Educational Corps as director of the College of Journalism of the American Expeditionary Force University, Beaune, Cote d'Or, France, was decorated by the French Republic in recognition of his services as head of the college. The minister of public instruction, L. Lefferre, conferred upon him the Palmes Academique, the officer d'Academie. This decoration, which was established by Napoleon in 1808, and which has been given to but few foreigners, is awarded in France to heads of universities and colleges and to professors attaining high distinction in science or letters.

In the College of Journalism, one of the twelve colleges of the A. E. F. University, with nearly 10,000 students and a faculty of 683,523 students registered in the seven courses. The faculty numbered seventeen, all practical newspapermen, three of whom were professors in American universities and fourteen

of whom were drawn directly from the army.

Ten American and French journalists connected with the Peace Conference were secured to lecture to the students. As a part of their laboratory work the students issued "The American E. F. University News" a four-page weekly, which carried no advertisements. The U. S. Signal Corps furnished it radio service.

### Unshaken Testimony

Time is the best test of truth. And Doan's Kidney Pills have stood the test in Rushville. No Rushville resident who suffers backache, or annoying urinary ills can remain unconvinced by this twice-told testimony.

Harrison Levi, 931 N. Sexton St., Rushville, says: "I used to have to get up six or seven times each night on account of the too frequent passages of the kidney secretions. Often the secretions were scanty and pained in passage. I also had severe backaches. Nothing ever did me any good until I began taking Doan's Kidney Pills, which I got from Johnson's Drug Store. It didn't take them long to fix me up; the pains left and my kidneys again acted regularly."

OVER THREE YEARS LATER, Mr. Levi said: "I am glad to confirm my former endorsement of Doan's Kidney Pills, for they have given me a permanent cure."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Levi had. Foster-Milburn Co. Mfrs., Buffalo, N. Y.—(Adv.)

## COLLEGE YOUTH IS SOME PUGILIST

Carl Broadley of Drake University is in Training and Promises to Show Well

HIS HOME IS IN TEXAS

In a Year With Hard Training his Manager Says He Will Meet Dempsey

By H. C. HAMILTON (U. P. Staff Correspondent.)

New York, July 24.—Drake university, Des Moines, Ia., is about to set a new record in pugilism.

You can count back as far as you like, but you will be unable to find in the history of fist-cuffs any mauler who ever attained any greatness who got his schooling within the walls of a university. Now, Drake students are out to batter that record into small pieces through the presentation to the world of Carl Broadley.

Broadley is a delicate youth of six feet, four inches, and 246 pounds. His home is in Texas, where they make 'em decidedly rough, and he wants to fight for a living—rather a high-flung ambition for a mere collegian, since box-fighters have begun to make millions in the game.

Off-seasons, young Broadley slays and rounds up steers, whips the country-side, and trains for football.

Coach Mark Banks, old-time football star, believes the youth he is training daily in the Drake gymnasium can take the measure of Jack Dempsey. He declares that in spite of his size Banks is faster than any heavyweight the world ever has seen, and in this class he places the new champion, even in spite of the things Jack has been doing to championship aspirants for many a day.

Banks probably hasn't given much thought to how hard the big boys fall when they stop wallops with their chin from fists carrying the weight of a Dempsey, but he can be excused for that if he really thinks he has unearthed a champion, for champions are practically as good as a young mint nowadays.

"Broadley isn't championship material right now," Banks said in Des Moines, "but proper handling within the next year will bring him around. I believe a session on the gridiron this fall will harden him a bit and make him a greater boxing possibility."

"The big fellow is just crazy to fight, and you can bet he's going to exhibit around here this winter."

### BUILD 2 GIGANTIC LINERS

50 Feet Longer Than Levithan With Speed of 30 Knots

(By United Press.)

Washington, July 25.—Two gigantic ocean liners, the swiftest and largest, are being built by the United States shipping board. Each vessel is designed for speed of 30 knots making it possible to cross the Atlantic in less than four days, the board said. They will measure 1,000 ft. in length, 50 ft. longer than the Levithan now the largest vessel afloat.

## The Hupmobile Kind of Satisfaction

THE record of Hupmobiles owned here reveals a very significant thing. It shows that a trifle under 50 per cent of our sales are made to people who have driven the Hupmobile before.

Many of them now have their second Hupmobile; some of them, their third and fourth.

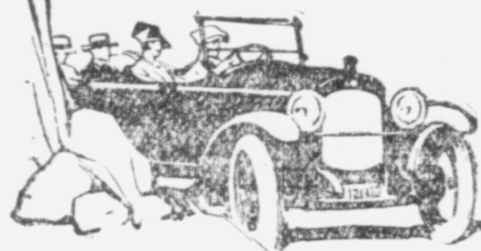

To our mind there can be no stronger testimonial as to the service the car actually yields—its unusual economy and its extraordinary performance.

If you are looking for the kind of satisfaction that makes a man willing to repeat his experience, not only once but two or even three times, all we ask is the chance to demonstrate the Hupmobile for you.

JOE CLARK

Phone 2155

East First

# Hupmobile

Men who can afford expensive luxuries—  
Men who cannot afford the luxury of great expense—  
Both of these classes are being won rapidly to constant use of the Goodyear Cord Tire.

Because this tire undoubtedly combines the qualities of luxury and economy better than they ever have been combined before in a tire.

It is so resilient that it *absorbs* road shocks—flows over bumps instead of fighting them. Yet it has remarkable, enduring strength—making it good for almost a hundred per cent more mileage than you probably have come to expect from your tires.

You will be surprised at how little more Goodyear Cords cost to *start with* and *how much less they cost in the end*.

### CAN A TOWN BE BRAVE?

By CARL A. RANDAU (U. P. Staff Correspondent.)

Paris (By Mail)—Has a city a personality? Can a town be brave? The French Government has answered these questions in the affirmative.

France has rewarded a number of towns and cities for their bravery during the present and former wars. Paris, itself, has recently been granted the Croix de Guerre. Now the town of Bitche, out in Alsace-Lorraine, has been added to the list of the brave by being cited for the Cross of the Legion of Honor, the present reward being made for the town's service nearly fifty years ago before it was torn away from France.

The first recognition of the bravery of cities was recorded in 1815 when Napoleon, during the hundred days, issued a decree authorizing the cities of Chalons-sur-Soane, Tournus and St. Jean-de-Losne to place the Eagle of the Legion of Honor on the coat-of-arms of the three communities for their brave conduct during the campaigns of 1814.

Until 1864 no more cities were accorded war honors. Then in that year Roanne was decorated. After 1870 the list became longer and included successively Chateaudun, Belfort, Rambervillers, St. Quentin, Dijon, Paris, Bazellies, Lille, Valenciennes, Landreche, St. Dizier and Peronne. In 1916 the historic city of Verdun was added to the list of Legion of Honor recipients.

Bitche, the latest recipient, has for fifty years been under German domination. The sacrifice and bravery of the town in the dark days of the Prussian invasion of 1870 won the coveted honor.

Proper cultivation of corn now means fewer weeds and easier work later.

## INSPECTORS MUST NOT BE TWICE PAID

Jesse Eschbach States This is Flagrant Violation of the Statutes of grant iVolation of the Statutes of Ind.

LETTERS SENT OFFICIALS.

Reports Show That Contractors Received Excessive Amounts for Incompleted Highways

Jesse Eschbach state examiner of the board of accounts, in letters addressed to county officials yesterday called a halt on the practice of highway inspectors employed by the county receiving additional compensation from road material firms or associations.

"This is a flagrant violation of the statutes of Indiana, criminal in its nature", the letter declared.

In the second letter sent by the board to county and township officials, attention is called to the discovery that in some counties contractors are allowed payment for more than 80 per cent of the work done. Mr. Eschbach said that several instances had been called to his attention by field examiners where counties had paid contractors for material on hand and that later the contractor failed to complete the road, being let out of the contract by the 1919 contractors' relief law. The counties that violated the law in making the payments now have this material on their hands and much of it is in a depreciated condition, Mr. Eschbach said.

"Our field examiners report," the letter referring to the employment of road inspectors reads, "that inspectors on improved highways throughout Indiana, appointed and paid by the several jurisdictions constructing such highways, are being paid an additional remuneration by certain persons, firms and corporations interested in said improvement."

"This is a flagrant violation of the statutes of Indiana, criminal in its nature."

"No public official nor board has any legal or moral right to pay any inspector from public funds if such inspector is being paid by any other person, firm or corporation for said duty of inspection."

It will be our duty to charge to the official or board making such payment any amount so paid.

"Unless stopped, it will be necessary to call the practice to the attention of prosecuting attorney throughout the state for such steps as they may deem necessary."

The letter relating to the excess payments on road work follows:

"Our attention has been called to a practice prevailing in a number of jurisdictions in Indiana whereby boards of county commissioners upon the engineer's estimate, are allowing payment of not 80 percent of the work done but are allowing payment for 100 per cent of the work done."

"All field examiners of this department will be instructed to pass only an allowance for 80 percent of the work done, and under no circumstances will payment be allowed for any material purchased, but not used, nor for any amount for work

## Public Sale of 159-Acre Farm AT AUCTION

I, the undersigned will sell at Public Auction, 159 acres, known as the late Cyrus W. Ball Farm, located 7 miles northwest of Rushville, four miles northeast of Arlington, one mile west of Henderson, one mile south of Farmers Station.

Auction to be held at No. 1 School House, Posey Township, Rush County, Indiana:

**Wednesday, August 6, 1919**

SALE TO COMMENCE AT 2:00 O'CLOCK P. M. Described as follows:

East one-half of northeast quarter, less school house ground, 79 acres, and east one-half of southeast quarter, 80 acres, Section 8, Township 14 north, Range 9 east.

### Two Farms

You will note from this description that this is a long quarter section that can be divided, one farm of 80 acres and one of 79 acres; about 10 acres timber, and deep well on each; both laying on gravel roads, close to elevator and shipping points, churches and schools, and under high state of cultivation; every acre level, well ditched and clear of stumps; sugar tree and burr oak land. There is a fine stand of young clover on 46 acres, as clover has always been rotated with corn and wheat. Possession given September 1st, including one-half of 66 acres corn, to be gathered, and 23 acres of clover for seed, subject to all rights of present tenant.

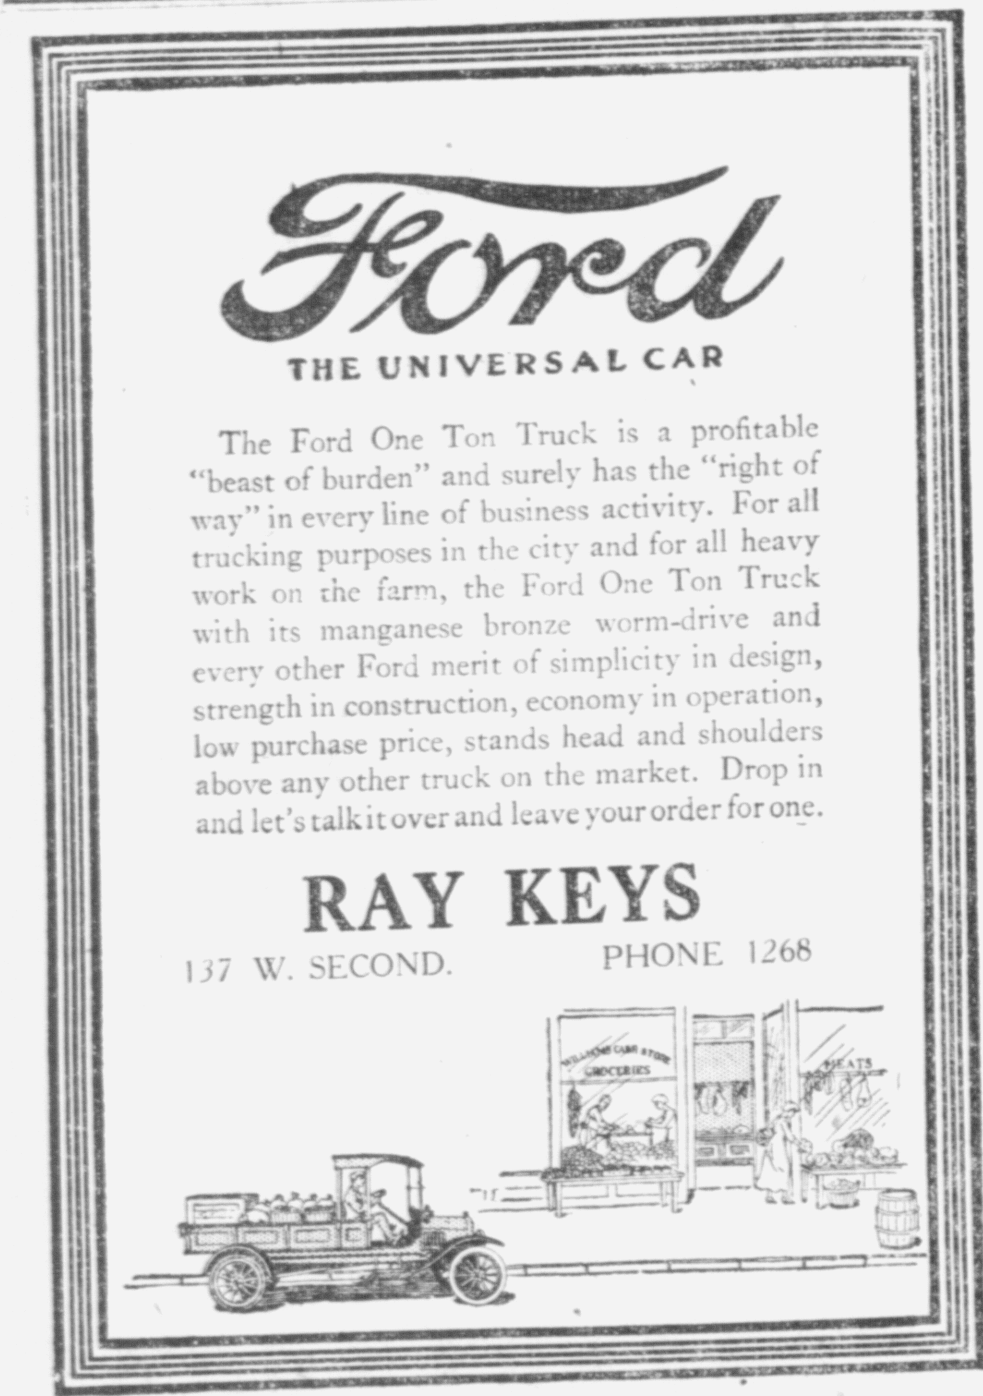

### Terms of Sale

Ten per cent of purchase price to be paid at sale on contract signed by parties. Balance to be arranged for within ten days. Twelve months' time with interest at 6 per cent on one-half purchase price, or all cash as desired.

**MRS. SARAH E. BALL**

A. L. GARY, Attorney.

### Dowagiac Steerable One-Horse Disc

The front wheel is a caster wheel permitting a short turn without lifting the drill and making steering between crooked rows easy.

The feeds are chain-driven from the axle of the two rear wheels which have ratchet hubs making both wheels drivers.

The Dowagiac five disc is self-guiding. It trails so perfectly that when the horse is driven midway between the corn rows the driver need not touch the handles and at the ends of rows the drill follows the horse in making the short turn. Each disc has independent up and down motion with spring pressure—the only way for uniform depth on uneven ground. With the convenient lever all discs are lifted when turning or transporting the drill to and from the field.

COME AND SEE THEM BEFORE YOU BUY.

## The Anker-Holth Cream Separator

is the only Separator on the market that has a SELF BALANCING BOWL and has no lead or soft solder on the inside in order to perfect a BALANCE, which you will find in other makes of Separators. The bowl is guaranteed to stay in balance the life of the machine. The Bowl is Self-draining which makes it non-freezing in cold weather. It is easy to turn and easy to clean, and can be washed in one-half the time you can wash any other Separator.

The Anker-Holth has no oil holes or feed cups. It is oiled by an up-to-date oil system; you only put oil in every 60 or 90 days. The ANKER-HOLTH will skim closer than any other Separator on the market today, which has been proven by tests with other leading Separators and tested by the Babcock cream tester. It is the only Separator with a dirt chamber that removes all impurities from the whole milk before it enters the discs for cream separation.

The Anker - Holth is a High-grade Separator at a Medium Price.

BEAVER BOARD  
FOR BETTER WALLS & CEILINGS

Why Live with Cracked Walls and Ceilings  
When They're Easily Covered Up

Beaver Board will cover them up for all time and you'll never have the job to do again. While Beaver Board is doing away with the danger of falling plaster it is covering up old dingy wall paper on walls and ceilings and giving you an ideal surface for painting and decorating.

Many an old homestead has been revived with this knotless, crackless manufactured lumber. Room after room has been made over—one at a time if you please—without muss or litter.

Beaver Board is real lumber. It is built up into large panels from the strong, pure

fibres of the spruce tree. Each panel is treated with the patented Sealite process which prevents warping. If you need to build or re-build, restore or enlarge ask us how you will profit by using Beaver Board.

To have your automobile look dressed up for Sunday take it to "Bob" at Joe Clark's garage and let him wash and polish it. 113tf.

NOTICE

Having completed our eighth successful year as dealers in Overland automobiles for Rush Co. we have decided to retire from the business and not renew our contract. Therefore having discontinued our business, to take effect Aug. 1st, it is necessary that we collect all our accounts before that date and those knowing themselves to be indebted to us will kindly call and settle before that time. Until Aug. 1st we will give 10 percent discount on tires, tubes and accessories.  
JONES & JOHNSON 113tf.

7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keen mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

FASCINATING TEETH

How Every Woman Can Quickly Charm Her Friends With Lovely Teeth, Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time.

And the cost is so little. Just go to any drug or department store, and get a large tube of SENRECO TOOTH PASTE for 35 cents.

Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of Pyorrhea and banish acidity in the mouth.

It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

OLD TIMERS ARE STILL YOUTHFUL

Most Athletics the Youth Plays an Important Part But Even at That There are Some Who are Old

OLD AGE BEGINS AT 30.

New York Giants Don't Have a Single Infielder Under 30 and the Younger Ones are on the Bench

By H. C. HAMILTON  
(U. P. Staff Correspondent.)

New York, July 25—It was clearly demonstrated a short time ago in a ring at Toledo, Ohio, that "youth must be served," but let's see if it really must.

Athletics, as a rule, in every line of effort, are about the same, so far as supremacy of youth or age is concerned. We find ball players passing out of the limelight at an age that strikes a fairly good average at 30 years; fighters drop hard after they have gone by that mark; runners, ole vaulters, football players—practically all who strive to amuse the public by athletic prowess with away as age creeps on them.

But there are exceptions to the rule. There are the Giants, for instance. Aged, decrepit, they have been called, yet the men led by John J. McGraw have set the pace for the National league practically infielder on the club under 30. The pitching staff is composed of veterans for the most part. George Burns and Benny Kauff have far too many years over their heads to be placed in the chicken class. The youngsters of the club are the chaps who are holding down bench positions, rather than the aged ones.

This club, it has been promised by many an expert, will crack in the dog days. But will it? It certainly is traveling at a fine clip now and shows small signs of cracking.

Then we have Dick Remer. If you never saw Dick Remer do a walking race you have missed a great sight. Dick has been winning walks for so long he can do it with his eyes shut and lead in his shoes. He walks around the youngsters. There isn't a man in the nation who can approach his form and speed when he is right. George Goulding is the only man on the track he has any great respect, for and Goulding has been making walking records for a good many years himself.

And then there is Jack Britton, who was defeated for the welter-weight championship by Ted Lewis. Britton is past 35 and is a better batter now than at any time in his career.

Pop Geers, who is so old he has quit counting, is still driving winning races on Grand Circuit tracks.

Doe Roller, who was considerable shucks as a wrestler before most of us knew what a rattle was, is still pinning shoulders to mats.

Youth will be served, of course, in most ventures, but age also has its fling in many cases, and don't forget it.

TELLS OF LIFE ON  
A BIG DIRIGIBLE

Correspondent Gets Permission to  
Board The R-34 and Finds it  
Interesting

MADE WITH ALUMINUM

It is 640 Feet Long and Has Accommodations Equal to That of Any Ocean Liner

By W. R. HARGRAVES  
(U. P. Staff Correspondent.)  
New York, July 25.—"The British never break a promise." This statement by Commander C. H. Scott, of the British Dirigible R-34, explained my visit to the interior of the giant airship during her stay at Mineola. Only two male civilians boarded the ship for inspection and my permission to do so was granted as the result of a promise made on the first day of her arrival.

Thus it is possible for the United

Press to give the first details of the living and working accommodations on the aircraft as seen through a landsman's eyes.

In spite of what may appear to be hardships and discomforts, perils and privations there were none of the thirty members of the crew who failed to express the same admiration for her that is felt by those who have become accustomed to travel on certain steamships.

"Of course the quarters are rather cramped and the conditions under which we live are unusual," said Lieut. R. D. Durrant, the radio operator, "but it is a splendid thing to feel that one is part of a new transportation development — and then, too, it is our duty to our country to further her interests.

This is the spirit that kept the officers and crew cheerful during their 108-hour trip westward, when weather conditions of unprecedented violence and atmospheric changes of unusual variety made life on the dirigible anything but rosy.

One of the greatest drawbacks to life on the R-34, perhaps is the lack of space in which to exercise. Although there is a "board walk" 600

feet long running the length of the ship along its keel, this is only 9 inches wide and as I walked, it cat-like, I could not help wondering what might happen if some of the crew took an overdose of the ration allowed all members of the British navy, on sea or in air, and tried to walk it off.

Before boarding the ship, which was constantly in motion through the action of the wind, although held down by hundreds of men, my shoes, hat and all matches were taken from me. This was to prevent the danger of creating sparks through friction from the nails in shoes. The removal of my hat was no doubt to prevent me dashing after it should it be blown off. A step over the side of the 9-inch walk would land one on the thin linen fabric which covers the aluminum frame, thence through it into the thin air below.

The dirigible is about 640 feet long and is cigar shaped. The framework is of massive aluminum girders welded together similar to the structural frame of a steel skyscraper. This frame is covered with prepared linen, like that used on airplanes, and within the body thus formed are the sixteen "gas" bags, sleeping quarters, petrol tanks, water ballast and drinking water. The navigating quarters and engines are in the gondolas which hang below.

The petrol tanks which supply fuel to the engines by gravity flow, are located beside the narrow walk and are held by clutches like ice tongs, which can be quickly opened to drop the tanks overboard if necessary.

On either side of the narrow walk are hung fine-spun hammocks strung from cross bars of the aluminum frame. If one of the air-gobs or officers should become restless in sleep and roll out, he would fall through the fabric which encases the frame, and make a swift descent to land or sea. Tied to each hammock is a deflated rubber life preserver and a silken parachute. In case of a great emergency, as fire, or imminent destruction through other causes, the life belt is inflated and the parachute hooked to a ring in a rope belt always worn. To make a safe exit, thus prepared for descent, the wearer must jump upon a circle in the linen fabric which has been cut out and replaced, held by a soft gum. This gives way, and permits him to fall through, leaving a clean, round opening instead of a tear.

These "ports" are located just beneath the aluminum petrol tanks, of which there are 81, each weighing 500 pounds and each containing 70 gallons. Sixteen of them are fixed and the remainder are called slip tanks. Should occasion require rapid ascent or immediate decrease of weight for flight, the slip tanks are released from their fastenings and drop on and through the holes.

The only light in the living quarters is that which filters through the green-painted linen, an uneasy and continual gloom or dusk. At night hand electric lights are used and when the watches are changed, every four hours, these lights are used to signal the approach of one of the crew along the walk should another member be coming from the opposite direction. There are no turn-outs on this narrow-gauge walk.

Amidships is the "dining hall" or "grand salon," or whatever a facetious officer may choose to call it. It is simply a widening out of the walk, the floor space at that point measuring about 10 by 15 feet. Here there are six hinged tables and a tiny washstand, also three tanks or distilled drinking water, each containing seventy gallons.

At mess time half of the crew off duty can squeeze into this space and eat their prepared and previously cooked food, buffet style. There are no chairs on the ship. Roasts, stews and potatoes, a limited variety of vegetables, coffee or cocoa comprise the meals. They are heated when wanted on appliances attached to the engine exhaust pipes. Obviously there is no after-meal cigar or cigarette enjoyed aboard.

One can stand upright traversing the length of the ship except near the bow and stern, here the gas bags are nearer the bottom of the huge envelope. There are eighteen hydrogen gas compartments within the shell, with a capacity of 2,000,000 cubic feet. Forward and aft there is a long, perpendicular ladder, extending upward between bags and reaching to the roof. The observer is obliged to scale this narrow and wiggly aluminum affair whenever he wants to "take a shot" at the sun in making observation. I got half way up but the gas fumes, increased by the fact that the Blimp was being held to earth, forced me down precipitately in utter disregard to the dents made in the soles of my stocking-feet by the sharp metal rounds of the ladder.

In the extreme stern, modern sanitary arrangements are arranged. Hanging below the bag are four "gondolas", or cars, one under the bow; two, side by side, amidship, and one under the stern. The forward gondola contains the "bridge" and chart room and navigators' headquarters, as well as the wireless room and forward engine. The navigating and pilot room, about six feet wide and ten feet long is the last word in completeness of navigation appliances. By means of speaking tubes and bells, all parts of the ship are controlled from this room. It is through this room that the ship is boarded from the ground access above being via another aluminum ladder.

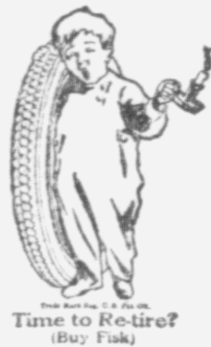

The two gondolas amidships, reached from the "envelope" by small ladders, each contain a single engine worked by two men. The after gondola has two engines and one propeller. When the R-34 silently nosed her way on to the field at Mineola, there were comparatively few to receive her, the landing crew having been rushed 100 miles away to where it was believed she would be forced to land. She hovered around, however, with an almost human appearance of hesitancy, as though she were looking for a comfortable place to lie down. Finally, after circling a few times, coming lower by ejecting water ballast and through manipulation of her elevating and steering rudders, she slowed down near the spot chosen and heaved an anchor overboard, for all the world like the Leviathan coming to a stop in New York bay. She then winched herself down to an elevation that permitted the ropes dangling from her to be grasped by a hastily collected "landing party" of more than three hundred men.

One feature of the mammoth airship that seemed to impress many of the thousands who saw her, was the peculiar silence which seemed to mark her departure. This silence, of course, did not apply to the throngs, but to the monster, as she gracefully and majestically raised her head and slipped swiftly upward and away into the night.

**When Feeding Hogs**  
Have you tried  
**SWIFT'S TANKAGE?**

Practically every one of the county's biggest hog raisers are now feeding it.

If these men think enough of Swift's Digester Tankage to feed it the year round, is it not worth your while to give it at least a trial?

Judging from results, you will find it to be the best and cheapest of all hog feeds.

Corn and other farm grown feeds and Swift's Digester Tankage make an ideal ration for hogs.

## WILL NOT PRESENT PACT AT THIS TIME

President Will Withhold Submission  
of Defense Agreement Until  
After Speaking Tour.

### WILSON FORCES ADAMANT

Administration Fight is Still For  
Unqualified Endorsement of  
Treaty and League.

(By United Press.)

Washington, July 25.—President Wilson plans to present the Anglo-French-American defensive agreement to the senate after he has finished his speaking tour for the league of nations, it was stated at the White House today.

The president is preparing an address to be delivered when the pact is presented, it was said.

Developments in the peace treaty fight today indicated President Wilson is abandoning his conciliatory attitude toward congress.

The resolution which Senator Lodge offered yesterday in the senate, asking Wilson to produce the British-French-American defense agreement, met with rebuff at the White House today, although no vote was taken on it by the senate. It was stated at the White House that Wilson would not take this document to the capital until he returned from his speaking tour.

For a time it looked as if this would be permitted, but preparations are being made for a start within a fortnight for this offensive into the home states of his opponents in the senate. When rumors of the new conciliatory attitude toward congress became manifest, it appeared his speaking tour might be abandoned.

Significance is attached to the fact that Senator Spencer, one of those called to the White House, was one of the first senators to learn of Taft's proposal of reservation in the league of nations. It is considered likely that the president will discuss Taft's proposal with him.

While senate administration leaders today declared William Howard Taft's suggestion of reservations will have no effect on the treaty fight, senators advocating reservations, said the former president's attitude will convince the country as nothing could of the absolute need for reservations.

The administration fight, Senator Hatchcock said today, remains just as it had been—a fight for unqualified endorsement of every word of the treaty and the league of nations.

Continued on Page Three

## ADMITS POSSIBILITY OF THEIR ADOPTION

Senator Pittman Says if Reservations  
Are Accepted, They Will  
Be Sanctioned by Others.

### PREDICTS FAVORABLE VOTE

Washington, July 25.—Admitting the possibility that the senate may adopt the reservations to the peace treaty, Senator Pittman, Nevada, in a speech to the senate today, declared the treaty's fate rests in the hands of those demanding interpretation and explanations.

He stated that "if reservations may be made, we have the right to feel certain that they will be accepted by all other nations without involving a re-opening of the whole matter of peace negotiations. In my opinion, such reservations will be approved by two-thirds of the senate."

"The vital question is whether qualifications of the peace treaty will send it back for re-negotiations and if so, what the probable results of such action will be," he declared.

## HOGS BRING RECORD PRICE

Edmund Gartin Sells 60 Head at Top  
of Market, \$23.50

With sixty head on the market yesterday, Edmund Gartin of this county received the highest price ever paid for Rush county hogs on the Indianapolis market.

The sixty head brought the top of the market, \$23.50, which is the record for the Indianapolis market to date, but many farmers predict that hogs will go to \$25.00 by the first of September. Mr. Gartin's hogs yielded \$1,311.16, which made the average better than \$70.00 a head. It was recalled by some farmers today that a good cow could be bought for less than this amount a few years ago.

## FIRST STRIKE OF AVIATORS BEGINS

Pilots Refuse to Carry Mail Until  
Two Who Were Discharged  
Are Reinstated.

### COMPLAIN OF CONDITIONS

Allege Machines Are Unsafe and  
That They Have Been Denied  
Safety Appliances.

(By United Press.)

Washington, July 25.—The postal aviators flying from Washington to New York, left Washington at 11 o'clock this morning, 30 minutes behind schedule, postoffice officials declared today. Officials also said planes flying from Chicago to Cleveland would leave on time.

New York, July 25.—The first aviators strike began here today when none of the aerial mail pilots appeared at Belmont Park, Long Island, to take out the Washington and Chicago mail.

Notices had been served on the second assistant postmaster general, Otto Praeger, by pilots employed in the aerial mail service that unless two recently discharged pilots were reinstated they would refuse to take their planes out this morning.

Postoffice authorities at the aviation field denied information to newspaper men and refused any information concerning department plans for meeting the situation.

The striking pilots expressed the belief that comrades of Cleveland, Chicago and Bellefont, Pa., would join them.

The type of planes furnished them constituted the chief grievance of the strikers. Scores of accidents, resulting in two pilots being killed and much damage done, were attributed to the fact that they were forced to fly in bad weather with faulty machines.

The discharged men are Leon Smith and Hamilton Lee. They also declared that the machines assigned to them were in dangerous condition.

The pilots also have other grievances, alleging their machines are unsafe, that they have been refused necessary safety appliances and that they are given the same pay as mechanics who do not risk their lives.

The aviators were confident their strike would tie up both the New York-Washington and New York-Bellefont-Cleveland-Chicago routes.

The aviators, most of whom are former army flyers, asserted that since July 15, when a series of heavy rains began, there have been fifteen accidents, two of which resulted fatally for pilot McCusker and pilot Sanborn. They said that their present machines have a minimum speed of 100 miles an hour, and that "low visibility" is "dangerous to both pilots and public." They ask slower and more stable machines.

A protest against the discharge of

## GARTIN RETURNS WITHOUT HIS CAR

He Found it, However, at Greeneville, Tenn., and Sold it to the Chief of Police.

### KNOCKED OFF THE \$50 REWARD

Machine Had Been so Badly Abused  
That he Decided not to Attempt  
Driving it Back

The two Ford touring cars, which have been the topic of much comment for the last three or four weeks, are now safely disposed of, and the chief of police at Greeneville, Tenn., is the proud owner of one flivver and the Franklin man has his safely put away in his garage in Franklin.

Mr. and Mrs. John Gartin returned home last night, after going to the Tennessee town to bring back their Ford which was stolen over a month ago. When they arrived there and took a look at the machine, they decided that the best thing to do would be to come back on the train. The chief of police had been so accommodating, having earned his \$50 reward, that Mr. Gartin just sold the machine to him, minus the \$50, with some extra coin to boot.

It is said the Jeffrey brothers sold the Franklin Ford for \$450 to a man living near Greeneville, and that this person was out that much money. When they sold the machine, they left for unknown places, but are thought to be in Virginia, and the authorities there are still after the men.

By the time that Mr. and Mrs. Gartin arrived in Greeneville, the Johnson county sheriff and the owner of the other car, had started for home, so by now the machine is in Franklin.

Mr. Gartin said that he hardly recognized the machine as being his, as it was badly battered and had been abused to such an extent, that the newness had been completely worn off.

Mr. Gartin stated that his car was recovered in the mountains last Friday when the Jeffrey boys abandoned it when the chase became too warm for them. The police had been hot on their trail all day, having fired at them several times. The Jeffrey boys escaped under the undergrowth at the side of the road.

The loot found in the machine by the police indicated that the former Rushville boys had robbed a hardware store, Mr. Gartin said. The back seat was loaded full of merchandise taken from a hardware store, including several boxes of bolts, a large number of monkey wrenches and about a hundred feet of inch rope.

Mr. Gartin declared that the Jeffrey boys were known to the police, having lived in Tennessee six years ago, previous to the time they moved to Rushville.

So ended the long, drawn-out case of the two stolen automobiles, but the three men may be heard of again.

## BILL GOES TO PRESIDENT

Agriculture Measure Minus Daylight Repeal Ready For Signature

Washington, July 25.—The house late yesterday passed the agricultural appropriation bill, after adopting the senate amendment permitting homesteaders to leave their farms during droughts without losing any of their rights.

The bill is without the daylight saving repeal rider, which caused the presidential veto of the original bill, and now goes to the President for signature. It is the last of the regular appropriation bills.

## NO AFFIDAVITS IN SMITH CASE

Husband and Wife, Who Have Fistic  
Combat at Milroy, Fail to Carry  
out Their Threats.

### APPEAL TO AUTHORITIES

Former Soldier Still at Garage he  
Was Ordered to Vacate—Wife  
Goes to Indianapolis

The town of Milroy ran high with excitement yesterday afternoon, when C. C. Jeffrey-Smith, a garage owner, drove into the town, with his wife bound hand and foot, tied to the rear seat of the automobile. According to the town gossip, the couple had been having trouble, and it broke out again yesterday.

Jeffrey-Smith is a native Frenchman, and has been in the garage business in Milroy for the last three months, occupying a business room owned by Frank McCorkle. The scandal seems to have started in Milroy some weeks ago, when Smith took Mrs. Freda Nichols a ride in his automobile, and it is said that they were seen together often in the machine later.

It seems that yesterday afternoon Mr. and Mrs. Smith were riding in the country, with Mrs. Smith on the back seat, and she suddenly threw a wire rope around his neck, drawing it tightly. The machine almost ran over an embankment, but Smith freed himself before any great damage was done. Mrs. Smith succeeded in getting a package of letters out of his coat pocket, which she threw in a stream, saying at the time that the letters would not figure in court.

It was at this time that Smith tied his wife hand and foot and started back to Milroy. Commenting on the affair, the Milroy Press says:

"He does not deny—but rather admits—that he bit her arms and otherwise treated her roughly in the scrap. He claims that he tied her because he was afraid to try to drive the machine into town with her free to do what she might wish to."

In making a search for the package of letters, he found they had not fallen into the water and he recovered them.

Smith displays welts about his throat, showing that his neck has been bruised in some way.

After driving to the doctor's office, he phoned his lawyer at Rushville, asking instructions. He says his lawyer advised him to untie the cord and let his wife free to come to Rushville and swear out a warrant for her arrest on a charge of attempted murder.

He said at the noon hour that he would go to Rushville early this afternoon and do as his lawyer had advised. At the same time his wife was attempting to get to the county seat to also swear out a warrant for the arrest of her husband. She had phoned the sheriff's office but was advised that it was necessary for her to come in person to transact the business.

Shortly after dinner yesterday afternoon, Mrs. Smith called Sheriff Jones, asking that he arrest her husband, but Mr. Jones told her that she would have to come to Rushville, and file an affidavit. Mr. Jones stated this morning that she never appeared, and the matter had been dropped as far as he was concerned.

Mr. Smith telephoned Prosecutor Stevens late yesterday afternoon, as Stevens was getting ready to go to Carthage on business, and nothing was done at that time. Smith, however, came to Rushville last night to consult with Stevens, but no affidavits were filed. Smith wanted protection from any mob which might be formed in Milroy, but Prosecutor Stevens told the man that if he was ordered out of the town, that he

## OFFENSIVE IS IMMINENT

Allied Army Prepares Movement  
Against Hungarian Reds

(By United Press.)

Vienna, July 25.—Start of the allied offensive against the Hungarian Red army appears imminent today. A number of allied officers inspected the Hungarian White army with a view to co-operation. The White commander received the entente officers who later went to the front, in the region of the Tisza river where the Reds are now attacking the Roumanians.

The Hungarian Red army which allied forces are expected to engage consists of eight divisions totaling 60,000 front line and 100,000 reserve troops. There are also 1,000 cavalrymen.

## SCORES FROM THIS COUNTY TO ATTEND

Republicans Are Making Arrangements  
to be Present at State  
Editorial Meeting

### TO BE IN NATURE OF A PICNIC

Interest in Event Increased by Announcement That Hays May  
Announce Candidacy

Scores of republicans in this county are preparing to attend the mid-summer meeting of the Indiana Republican Editorial association, next Friday, at Magnesia Springs, near Brookville. Many will go in automobiles and others will travel by interurban to Cannelton and take a special Big Four train to Brookville, which will be run from Cambridge City.

Interest in the meeting was increased today with the announcement that Will H. Hays, republican national chairman and former state chairman, would probably announce his candidacy for governor on the republican ticket. Local republicans have been expecting such an announcement from Mr. Hays, because he has been sounding out party workers all over the state regarding his proposed candidacy.

Due to the proximity of the meeting place and the fact that Miss Mary Sleeth of this city, chairman of the republican women's organization of the county, will represent the women of the district at the meeting, the attendance from here is expected to be unusually large.

Fon Riggs, republican county chairman, emphasized today the point that the meeting is not only for Republican men, but for their wives and children as well, especially their wives, because of the prospect of women being given the right of franchise by amendment of the United States constitution. Indiana women already have the privilege to vote for president in the next election, under a state law. Mr. Riggs pointed out that the meeting will be in the nature of picnic and urged republicans all over the county to make the day one for an outing. The Springs are in easy motoring distance and the place is ideal for picnicking. Although a fried chicken dinner will be served at the Springs, anyone has the privilege of taking a picnic dinner along.

The special train will start at Cambridge City at ten o'clock and will be boarded there by a large Wayne county delegation, which will boost the candidacy of Lew Bowman of Richmond, for the republican nomination for state auditor. The Richmond crowd will bring a band and will be headed by Major Paul Constock, son of the late Congressman Constock. The train will pick up two extra coaches in Cannelton.

## SITE NEAR THIS CITY CONSIDERED

Seven Day Adventists Have Rushville Under Consideration in  
Selecting College Location

### WANTED ONE WEST OF CITY

No 80-Acre Tracts There Are Available—Old Fair Grounds Suggested as a Site

That the Seven Day Adventists have been considering Rushville as a site for their college, was disclosed today by a local real estate man, who said he had been corresponding with representatives of the college regarding location of the school here.

The college authorities have under consideration three sites near Anderson, but it is understood here that none has been selected and that there is still a chance to locate the college, providing a suitable location can be provided here.

The representatives of the school who made a quite investigation here to see if the location would be suitable, took up with the real estate dealer the question of buying eighty acres of land near Rushville. They said that they preferred to locate the school just a short distance west of the city, along the Indianapolis and Cincinnati Traction line.

The real estate agent interviewed all the land owners along the interurban line for a few miles west, but could not find one who was willing to sell a strip of eighty acres by the traction line. The agent was notified the college authorities that a site west of Rushville is not available.

It was suggested that the old fair grounds, which the county commissioners bought with the belief that it would make an ideal location for a county hospital, might be sold to the college authorities, if they were willing to go east of Rushville. They will be advised of this opportunity and negotiations between them and the commissioners may be started, provided they are willing to consider a site a short distance east of Rushville, which apparently would meet their requirements as well as a tract of land west of the city.

There are only twenty-five acres and a fraction of land in the old fair grounds, but the county owns some land, a part of the poor farm north of the traction line, which the commissioners might be induced

## COMMISSION TO FIX AMOUNT OF DAMAGES

Goodyear Tire & Rubber Co. Agrees  
To Pay Families of Dead and  
Injured in Blimp Disaster

### WILL AVOID COURT ACTION

(By United Press.)

Chicago, July 25.—A new departure in settlement outside of court for damages done in the great disaster was seen today in the announcement of officials of the Goodyear Tire and Rubber company that a commission of Chicago people had been named to fix amounts to be paid families of the 39 dead and injured in the recent blimp tragedy here.

The announcement was made by the vice-president of the tire company, who declared the company will pay without resistance any amount the commission decided on. Families, however, are not required to accept the amount, but have the opportunity offered to save tedious court proceedings.

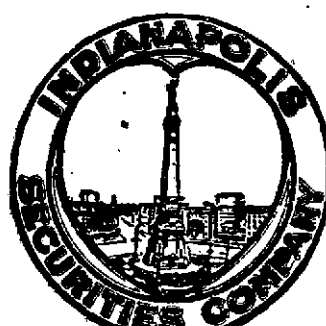

Representing the perfection of engineering ideas many years ahead of other cars, the Essex is new, different and exclusive. the result of advanced design and fine quality.

The Essex is the only high grade automobile on the market today selling for less than \$2,000. It is the only car combining extreme economy of operation with power, comfort and durability. Possessing the luxury and performance of the most costly cars, it has the further advantage of much greater economy.

Since the very first day of its introduction to the public there have never been enough Essex cars to meet the demand. Despite the tremendous increase in production, dealers all over the country have been forced to establish waiting lists. We are filling orders in the same sequence as they are received. To avoid possible disappointment you should place your order now.

## ANNIVERSARY OF TRAGEDY AT MILROY

On July 24 Thirty-Five Years Ago Three Men Were Killed and Many Injured in Explosion

### BOILER OF ENGINE LET GO

It was recalled yesterday that July 25, according to the Milroy Press was the thirty-fifth anniversary of a tragedy that cost the lives of three Milroy men when a boiler of a steam engine exploded while threshing on the Joseph Hall farm north of Milroy.

Two of those were killed outright and the third lived only a few hours, the funeral for all three being held the same day. Those who were instantly killed were Dave Henderson, brother of Joe Allen Henderson; Eugene Swain, brother of Mrs. W. W. Barton, Everett Swain and Alfred Swain, the latter now living in Seattle and Marshall Nay Innis, brother of Wade Innis of Milroy.

Hutch Innis was badly scalded and several others received minor wounds. Robert Tompkins, now of Rushville, was picked up and carried over to an adjoining potato patch without a scratch.

The whole community was greatly excited at the news, and the whole town rushed madly to the scene. Ed Darnell, a brother of Sam Darnell, did not wait to saddle or bridle a horse, but jumped onto one and dashed into town to call for help.

At that time William Barton was conducting a drug store in the room now occupied by The Press. In those days whiskey was kept in stock by the barrel, and Mr. Barton recalled today that people desiring to offer aid to the injured came in with pails and filling their buckets rushed wildly to the scene. Whiskey then was considered a first-aid remedy for any injury or ailment.

Eugene Swain, brother of one of the men killed, quit the threshing outfit the day before because he believed the engine unsafe.

Some may think cows sell high here, but in Europe it is not so much a question of money, as it is finding cows that are for sale. The few that sell "over there" do sell high.

nersville and will not leave there until eleven o'clock. The train will be held there for the accommodation of persons reaching Connersville on the 10:41 I. & C. car. Under this arrangement, it will be possible to leave here over the I. & C. at 10:07 and get to Brookville on the special train.

Will H. Hays, who will be the headliner. He is expected to discuss party issues at the afternoon session of the editors. Mr. Hays' presence is expected to attract political workers from over the state who will mingle with the newspaper men.

Paul Comstock, who recently returned after a long period of service in France also will speak.

Miss Sleeth will represent the Republican women on the program. She expects other county women workers of the district to be present "to get a line on the situation."

State officials, including Governor James P. Goodrich, William A. Roach, secretary of state, Otto Klaus, auditor, and his deputy, L. S. Bowman, Uz McMurtrie, treasurer; Patrick J. Lynch, clerk of the supreme court, Will H. Adams, reporter to the supreme court, and others are arranging to attend the meeting.

## NO AFFIDAVITS IN SMITH CASE

Continued from Page One.  
best thing for him to do, was to stay away. Stevens also told him that the town would be a great deal better off, if both of them would leave the country.

The excitement had died down in Milroy today, following the departure of Mrs. Smith for Indianapolis last night, and Smith was still in possession of the McCorkle room which he uses for a garage.

Mr. Stevens said this morning that Smith had prints on his neck to show that he was handled roughly, but did not file any affidavit against his wife, asking that Stevens do the filing, which he refused to do.

Smith is a returned soldier, having served for several months in France, and after being discharged, went to Clarksburg, where he and his wife lived, until three months when they moved to Milroy. Speaking further of the case, and about Mr. McCorkle's attitude, the Press continued:

Mrs. Smith claims that her husband has been intimate with other women, and he in turn charges that she was unfaithful. He claims to have in his possession letters which his wife wrote other men during his service in France, as well as since he has been in Milroy.

Frank McCorkle, who owns the building in which Smith has been conducting a successful garage and repair shop, upon learning of the trouble today, gave Smith orders to vacate at once. In his talk, McCorkle painted a horrible picture of the Frenchman and advised him to leave town, at the same time giving a hint to the crowd that gathered to take the matter of his leaving at once into his own hands.

Smith made an unsuccessful effort to explain things to McCorkle, whose parting word was to "Get your tools and leave as soon as the Lord will let you."

The scandal seems to have gathered Milroy into its field of action some weeks ago when Smith and Mrs. Freda Nichols took a ride in the car. Mrs. Smith appeared in town the next day from Indianapolis, their former home, and threatened to shoot Mrs. Nichols. The trouble seems to have died somewhat until a few days later when it is said that Smith and Mrs. Nichols, again were seen together in the machine.

Smith does not deny his having been with Mrs. Nichols, but claims that he was merely giving her "a lift" in other words overtaking her and asking her to ride as a favor.

Smith says he has been trying every way he knew of to persuade his wife to leave him, having, he says, prepared to sue for divorce, which can not be acted upon until he has been a resident for six months.

The couple have been living in the same house, but they say they were never together living in separate rooms during their residence in Milroy.

## This is the open season for stains

Dad acquires grease from the lawn mower and motor car. A splash of strawberry or blackberry sundae mars Daughter's middy. Towser prances with oily feet on Son's shirt or trousers. Fruit juices tint Mother's table linen and best dresses.

to sell, it is said. If they would not it is stated that the owner of the farm adjoining on the west would be willing to part with some, which could be added to the fair ground site. Many who heard the suggestion believed that the old fair grounds would make an ideal college site. The soil is especially suitable for garden truck, which would be the main use to which the farm would be put by the college.

WILL NOT PRESENT PACT AT THIS TIME

Continued from Page One

While the pact move continued today to hold senatorial interest, there was also much discussion of the new clash between republican senators and President Wilson over his failure to submit the special French treaty and to answer three senate resolutions asking for information about the peace treaty. The foreign relations committee today continued reading the treaty. The reading will be finished, at the present rate, early next week.

Personal Points

—Mrs. Louis Fritts spent the day with friends in Indianapolis.

—Mrs. J. W. Worden of Shelbyville spent yesterday with relatives in this city.

—Dr. D. D. Drago was in Os-good yesterday, where he attended the Ripley county fair.

—Mrs. Ralph Harrold of New-castle came yesterday for a visit of several days with relatives here.

—Mrs. Horace Ingram of Chica-go came today for a visit with her parents, Mr. and Mrs. J. W. Hog-sett.

—Miss Sylvia Mullins returned today from Muncie, where she has completed her course in the Normal college of that place.

—Mr. and Mrs. T. J. Downey left yesterday for a trip through the west. They expect to visit Yellow-stone Park and other places of in-terest.

—Mrs. N. O. Pittenger of Bloom-ington, Ind., who has been visiting her mother at Connersville, spent the day here as the guest of Mrs. R. E. Harrold.

SAYS LOCAL PRODUCT IS BELOW STANDARD

Food and Drug Commissioner Names George Harrell as Not Meeting Requirements

MANUFACTURES ICE CREAM

Ice cream manufactured by George Harrell, 221 North Morgan street, is below the standard re-quired, according to Harry E. Barnard, state food and drug commis-sioner. Other ice cream made and sold here was found to be up to the standard, in an inspection made last Thursday by a representative of the state department.

Condemnation orders have been issued against all delinquent manu-facturers in the state, it was an-nounced by Mr. Barnard in Indian-apolis yesterday, and prosecution will be started if more samples show less than the Indiana standard of eight percent butterfat.

The inspector found Charles J. Caron's ice cream contained 9.7 percent butterfat, and Mr. Caron said it was usually run above this percent. F. E. Wolcott uses Caron's ice cream and the Greeks use In-dianapolis ice cream which is up to standard. The report also said Har-rell was using raw material in vio-lation of the law, which requires all cream used in the manufacture of ice cream shall be pasteurized.

"WHEN LOVE IS BLIND"

U. S. "RIM" FLIGHT IS RESUMED TODAY

Army Plane Departs From Mineola, N. Y. on Next Leg of The Jour-ney to Augusta, Maine

SHIP IS REPAIRED IN AIR

(By United Press.)

Augusta, Me., July 25.—Lt. Col. Hartz and corps of four men arrived here at 1:05 today, completing the second leg of the journey around the boundary of the United States in a Martin bombing plane.

The plane left Mineola at 8:25 this morning and after an unevent-ful flight, landed here without a mis-hap.

Mineola, N. Y., July 25—Lieuten-ant-Colonel R. S. Hartz who, with a crew of four men, is making an 8,000-mile trip around the rim of the country in a Martin bombing plane, left here at 8:25 o'clock this morn-ing on the flight to Augusta, Me.

Colonel Hartz arrived here from Washington yesterday, on the first leg of the flight making the trip in two hours and forty-seven minutes. A leak developed in the water tank, but this was repaired while the plane was flying at a height of 5,000 feet over Baltimore.

The next leg of the flight around the country is from Augusta to Cleveland, a distance of 660 miles.

TO BE PHYSICAL DIRECTOR.

Miss Phoebe Bentley of Greens-burg, who recently graduated from the American School of Gymnastics at Indianapolis, has accepted a po-sition as physical director in the public schools of this city, according to an announcement made today.

WILL INVESTIGATE BUYING

Federal Trade Commission to In-quire Into Packers Methods.

Washington, July 25.—The senate today directed the federal trade commission to make immediate in-vestigation of the packers' methods in the buying of cattle and hogs.

The investigation is provided for in a resolution introduced by Sen-ator Harris, Georgia, former chair-man of the federal trade commission which was adopted without a roll call today.

FIRST STRIKE OF AVIATORS BEGINS

Continued from Page One

the two pilots gave Mr. Praeger twenty-four hours to make known his decision. Mr. Praeger in his re-ply, which was received by the avi-ators last night, announced that the orders discharging the two men had not been revoked.

They came into the service," Mr. Praeger's telegram said, "as every other pilot with the knowledge that they must comply with the depart-ment's orders to fly with the mail and where flying conditions are such that they can not operate they have the option to resign.

Aviators of mail planes at Chica-go, Cleveland and Bellefonte have joined in the strike, according to local aviators.

The Sullivan county boy who is worth \$2,000 after two years as a member of a pure-bred pig club will no longer question the value of club work.

A MESSAGE FOR YOU

**Will H. Hays' Hat**

Indications are that Will H. Hays of Indiana, who was so eminently successful as republican state chairman and has made such a good job of the national chairmanship since his election to that important post, will toss his hat in to the ring at the mid-summer meeting of the Indiana Republican Editorial Association at Magnesia Springs next Friday. Prognosticators say that he will be a candidate for the nomination for governor and all signs indicate that they are not far wrong.

Many republicans are of the opinion that Mr. Hays should not take the step at this time, but that he should complete the job which he has started so auspiciously. There is none to deny that he has made a success of the national chairmanship and has done more than any one man to weld together the discordant elements in the republican party. Under his leadership, republicans here feel that the national campaign of 1920 which would have much better chances of success than with any other man at the helm.

Mr. Hays has been sounding out party workers in Rush county regarding his proposed candidacy for governor, and a great number of them, in their replies, have been very frank with them. They have told him that he is so well fitted for the position he now holds that he should continue through the next presidential campaign.

Republicans throughout the United States have been pinning their faith in Will Hays to elect the republican ticket in 1920. He has performed in the past in such a fashion that republicans everywhere have been drawn to him as the logical leader. Mr. Hays' record in Indiana also instilled loyalty for him in the hearts of republicans everywhere.

Representatives propose that the tons of food which the war department has on hands be sold to the people as one means of reducing the high cost of living. The scheme would be feasible if there were a ton for everyone.

The dirigible which fell through the skylight of a Chicago business building did almost as much damage as a German Zeppelin would have done to New York, in the days when Germany had visions of world domination.

The name, Magnesia Springs,

**New Chemical Kills Bed Bugs P. D. Q.**

The new golden colored chemical Pecky Devil, Quicker, P. D. Q. can now be had at any drug store, as arrangements have been made whereby the retailer can get it from his wholesaler.

The new chemical, P. D. Q., is very powerful. A couple of ounces can be procured for a few cents and you'll have enough to kill a million bed bugs if you could get that many together. P. D. Q. does not rot or burn the springs or clothing. It leaves a coating on their eggs and prevents hatching.

P. D. Q. if properly used, rid the house entirely of the bed bugs, ants, roaches and fleas. Safe to use to rid your pet dog of fleas.

A potent spot free in every package of P. D. Q. enabling you to get the pecky insects in the hardest to get places.

Have your Automobile Body and Fenders repaired and save 50 to 70 per cent. Strictly high class work done. Special bodies and upholstery work.

When a fellow brags of having a mind of his own, it is generally during the absence of his wife.

Wilson proposes, the senate opposes and the press exposes.

**CANNING PAYS FOR BOOK AND SHOES**

Knowledge of how to can products that will command a ready sale is enabling a mother in the hills of Albemarle County, Virginia, to keep her ten children in school. School books and clothes cost money, but this ambitious mother was determined that her children should be educated. The coming of the home-demonstration agent of the United States Department of Agriculture and the State college to her neighborhood showed her a way of earning money by canning for market. Not only do home-demonstration agents in Virginia teach the women how to can successfully, but they help them sell their surplus canned products.

Late in the fall, with a two-horse wagon loaded with her canned fruit and vegetables, this woman of the hills drove 20 miles to the home-demonstration agent's headquarters with 30 gallons of apple butter, 376 quarts of canned tomatoes, 3 quarts of ripe tomato catsup, 8 quarts of green tomato catsup, 12 quarts of okra, 12 quarts of fox-grape preserves, 43 No. 2 cans of string beans, 36 No. 2 cans of corn, 48 quarts of canned peaches, 48 quarts of canned blackberries, 12 quarts of butter beans, 12 quarts of canned squash, 2 quarts of damson preserves, and 8 quarts of green tomato mincemeat. Through the efforts of the home-demonstration agent the wagon was emptied in a short time in the university town, and the little boys and girls up in the hills had shoes and school books during the winter.

It is easier to make jellies, jams and marmalade in the winter than during the hot and busy summer months. Can the fruit and at your leisure turn it into the goodies that take time to make.

A baby girl weighing eight and three quarters pounds was born to the wife of Frank Long, who lives home near Gans, yesterday.

**A GIGANTIC BONE IS FOUND IN CLAY**

Belong to Some of the Prehistoric Animals Which Roamed The Earth Years Ago

**OTHER RELICS TOO ARE DUG UP**

Found Near the Old Tile Factory Near Connersville by A. Fries Who Was Digging in Clay

At the Fries factory, west of Connersville, A. Fries yesterday uncovered another of many evidences of a prehistoric life thereabout—a relic of an old past which impressed him strongly. He was scraping up clay with a horse-drawn scraper, when the big scoop turned over and broke off a bone. It was no little whippet of osseous tissue, but a giant, five feet long and seven inches through. So gone to pieces with age was it that the bit of the scraper cut through it as it would cut through punk, and though Mr. Fries dug up the whole object, he had not more than time to observe its length and diameter when it fell into fragments, under the action of the air.

This is not the first significant find which Mr. Fries or his men have made in the low swale, west of the tile works, where they pit their clay. They have found other huge bones, in a radius of twenty yards. They have found teeth, some of them longer than the teeth of a farm harrow. The teeth are sounder than the other bones.

These relics undoubtedly belonged to some huge creature which was one of a species that lived among the swamps and forests of this region at a time so remote that human history does not furnish a rule to measure it with. Just what the monster was the naturalists probably perceive, but hereabout the matter is by no means clear. It is the geological evidence that, in the vicinity of the Fries plant, there was even within the recollection of men, a pretty large lake, black with wild fowl and teeming with aquatic life. But that this lake had anything to do with the monster whose bones are being exhumed is not to be supposed. It, more probably, was one of a race of mammoth quadrupeds, caught, ages before, when the glaciers, like gigantic jackplanes, came scooting this way and played such havoc with the warm-weather things which lived here.

**LEARN HOW TO CAN**

This article is the first in a series on food conservation prepared by the United States Department of Agriculture. Complete illustrated instructions for canning, drying, brining, pickling, preserving and jelly making will be given in a forthcoming articles. The directions will be simple and even those who have never canned before can do so with success if instructions are followed.

**Operation Not Successful**

"16 years ago I was operated for appendicitis and later operated again for gall stones. Neither did me any good and I suffered all kinds of torture since. Five years ago I took Mayr's Wonderful Remedy and have felt no symptoms or pain since. All stomach sufferers should take it." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For Sale by Druggists Everywhere.—(Adv.)

**Our Daily Laugh**

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

He was a bedraggled, weak looking man, with shiny elbows and shiny nether clothes, and he was herding a flock of children to the steps of a trolley car with a "shooing" motion such as a mother chicken uses in corralling her chicks. There were seven or eight children, active and inactive. Some hopped on, others fell on, others strange to say mounted the steps in polite manner. With a sigh the father produced a frazzled leather wallet swapped a baby to his left arm, decoyed a well flattened dollar bill to daylight and handed it to the conductor.

"How many?" quoth the strap yanker.

"Uh! Oh let us see. One, two—seven and one under age." Seven kids were up front. "Are they all yours, or is it a picnic?" The reply was sepulchral:

"They're all mine, friend, and it's no picnic."

Some persons misinterpreted a story printed in this column yesterday about a mythical "Pop Regan," thinking it referred to the late Timothy Regan, who was a C. I. & W. flagman here. It was merely a coincidence the names were the same as the stories are received by the Republican through a newspaper service at Bedford, Pa. Yarns submitted for the column are sent to Bedford and if accepted, the prize of \$1 is paid.

A prize of one dollar will be awarded for all funny stories which are accepted for this column. They should be brief and to the point.

**Amusements**

**"A Vagabond of France"**

Henri Krauss will appear at the Mystic theater tomorrow in the splendid picture, "A Vagabond of France." There will also be a Toto comedy on the program, "The Great Water Peril."

**"Doug" Again Tonight**

One of the exciting episodes in Douglas Fairbanks' new picture, "The Knickerbocker Buckaroo," which will be shown at the Princess again tonight, is that of the screen athlete climbing out of a window of a speeding Pullman, continuing up to the roof of the car and running along on the top of the train, then jumping to the swinging arm of a water feeder from which he leaps onto the back of a horse. This is the start of a thrilling chase in which two hundred cowboys pursue Fairbanks for miles up into the hills.

Arrangements were made with the office of the Director-General of Railroads for the use of an entire train for the scene above described. An abandoned track in the San Fernando desert was selected for the location, because of the scenario demanding the desert atmosphere.

**Stock Company Coming**

The Mac Stock company will come here on Monday night for a week's engagement showing in their tent, on the old ball lot, in South Main street. The company this year is said to be better than ever before, and carries 22 people, with their special scenery. The company was formerly the Mac-Taff stock company but now each of the owners have their separate companies.

The opening play will be "The Girl from out Yonder", a four act comedy. The usual run of vaudeville will be staged between acts, and a jazz orchestra will furnish the music. The advance agent, Leon Syah, will be remembered by his Rushville friends, as having been with the Guy Plays for a number of years.

**TO PLAY G. AND J. TEAM**

The Arlington Red Sox will play the Indianapolis G. and J. Tire team Sunday, July 27. The G. and J. team is considered strong and the Sox are expecting a fast game.

Sunday school, Evangelist Wainwright will talk to the school at the close; 7 p. m., open air meeting; 8 p. m. Big Salvation meeting which will be the first meeting of the revival the evangelist will conduct. Meetings every evening except Monday, beginning at 8 o'clock. Captain and Mrs. Tench, officers in charge.

## DINNER FOR COMMISSION

State Highway Plans May be Unfolded at Banquet Tonight

(By United Press.) Indianapolis, Ind., July 25—Plans for Indiana's proposed highway system are expected to be unfolded by members of the state highway commission at a dinner given them and Governor Goodrich tonight by the Hoosier Motor Club. Lemuel P. Dobyns, chairman of the roads committee of the state senate, and Emsley W. Johnson, author of the county unit bill, are slated to address the meeting.

Automobile owners from several parts of the state also will attend the banquet.

## CASE POSTPONED

Perry Meeks, the Glenwood man, who was arrested on an affidavit filed by Charles Hammond, on a charge of carrying concealed and drawing deadly weapons, was to have been tried in the Connersville police court last night, but the case was postponed for a while and the exact date is unknown.

## CATHOLIC CARNIVAL TO BE STAGED NEXT WEEK

Will be Held Only Two Days This Year—Not Given Last Year on Account of War.

### WEDNESDAY AND THURSDAY

Announcement is made that the annual Midsummer Festival of St. Mary's church will be held again this year. The dates selected are Wednesday and Thursday nights of next week, July 30 and 31.

Beginning in a modest way, the annual carnivals conducted by the men of St. Mary's church, grew in proportions until they resembled a county fair and became a notable feature in the social life of the community.

Last year owing to the fact that the war was waging in all its intensity and so many of the young men of the parish were in the service of the country, the carnival was not held.

Now that most of the boys are back home they will again undertake to resume the Annual Festival, but along less elaborate lines. Many of the old features will be discontinued and the affair will be limited to two evenings. But the old spirit will prevail and every effort made to provide a delightful summer night's diversion.

The I. O. O. F. Band will re-organize for the occasion and provide stirring music each evening. Vaudeville shows will be given, there will be a Ham Tree, refreshments will be served and the ladies will conduct an exchange each evening as well as a Fancy Booth.

## ROBINSON ANALYZES SHANTUNG PROVISION

In Speech to Senate He States Japan Gets Control of 400 Sq. Mi. of the 55,900 in the Provision

### RULES ONLY 165,000 CHINESE

(By United Press.) Washington, July 25.—Senator Robinson, Ark., yesterday analyzed the Shantung provision of the peace treaty in a speech to the senate in which he said:

"That the Japanese gets control of only 400 square miles of the 55,900 in the Shantung provision and will rule only about 165,000 Chinese out of the 400,000.

That China claims that they did not surrender sovereignty to Germany is belied by the terms of the treaty by which Germany took over Kiaoo-Chau.

That Japan is committed in writing and orally to the return of Shantung to China with certain conditions complied with.

## CRIME DOUBLED IN A YEAR

Records of U. S. District Attorney For Indiana Reveal This

(By United Press.) Indianapolis, Ind., July 25—Crime in Indiana has increased one hundred percent during the year ending June 30 over the preceding year, according to information obtained today from the office of L. Ert Slack United States district attorney for Indiana.

During the fiscal year ending June 30, 1918, criminal prosecutions were begun against 258 defendants in federal court and during the past fiscal year 659 criminal cases were started. Fines assessed in federal court during the two respective years totalled \$11,852 and \$53,466.

The Second M. E. church of Rushville will entertain Sunday July 27th at the Rush Co. Chautauqua grounds. The public is cordially invited. Interesting talks by Dr. H. W. Tate of Cincinnati. Morning services at 10:30. Afternoon at 2 o'clock and evening at 7:30. Afternoon and evening program will consist of good singing by the Connersville and Rushville choirs, also special solos and jubilee songs. Chicken dinner will be served between 12 and 2 o'clock to the public on the grounds.

## Now Is a Good Time To Drive Out Catarrh

The Trouble Is in the Blood. Summer catarrh, with its nauseous discharge, stuffed up glands, difficult breathing, and summer colds, is bad enough, but the worst of it is yet to come if you neglect to check the growth that is forming to attack you with ten-fold greater power during the winter. That's why it is so important to treat catarrh with S. S. S. during warm weather.

## Facts What Is

Fattening swine gain more quickly at less cost when full fed on forage than when a partial ration is put before them. Besides, they are marketed at a better season.

Three bunches of 47 pound pigs were carried for 55 days respectively on alfalfa, clover and rape pastures, with no grain or commercial feeds. The alfalfa pigs gained 3½ pounds. The bunch fed on rape (an over-rated forage) made a ½ lb. increase. Of course, several of the pigs died. Those that survived were thin in flesh, with very low vitality. Any disease would have meant good-bye piggies.

It does not pay to underfeed.  
It pays to feed Fat Back Hog Feed.

BRITISH STATESMAN IS 71

Arthur Balfour, Foreign Secretary, Has Held Nearly Every Post

(By United Press.)  
London, July 25 (By Mail).—Arthur James Balfour, Foreign Secretary and veteran British statesman, celebrates his 71st birthday today. Balfour has held practically every post in the British government, coming from the "hereditary legislator" Cecil family. He is a nephew of the late Marquis of Salisbury, whom he succeeded in the Premiership in 1902, holding the post until 1905.

One of the most brilliant and versatile men of his time, his admirers call him "Prince Arthur", from his courtly manner. Rivals call him "Pretty Fanny", but he has no real enemies.

Will H. McMillin, county auditor, is ill at his home near Gings and is unable to be at his office in the court house.

MILLIONS Suffer from Acid-Stomach

Millions of people suffer year after year from ailments affecting practically every part of the body, never dreaming that their ill health can be traced directly to acid-stomach. Here is the reason: poor digestion means poor nourishment of the different organs and tissues of the body. The blood is impoverished—becomes weak, thin, sluggish. Ailments of many kinds spring from such conditions. Biliousness, rheumatism, lameness, sciatica, general weakness, loss of power and energy, headache, insomnia, nervousness, mental depression—even more serious ailments such as catarrh and cancer of the stomach, intestinal ulcers, cirrhosis of the liver, heart trouble—all of these can often be traced directly to acid-stomach.

Keep a sharp lookout for the first symptoms of acid-stomach—indigestion, heartburn, belching, food repelling, that awful painful lump after eating, and sour, gassy stomach. EATONIC, the wonderful modern remedy for acid-stomach, is guaranteed to bring quick relief from these stomach miseries. Thousands say they never dreamed that anything could bring such speedy relief—and make them feel so much better in every way. Try EATONIC and you, too, will be just as enthusiastic in its praise. Make your life worth living—no aches or pains—no blues or melancholy—no more of that tired, listless feeling. Be well and strong. Get back your physical and mental punch, your vim, vigor and vitality. You will always be weak and ailing as long as you have acid-stomach. So get rid of it now. Take EATONIC Tablets—they taste good—you eat them like a bit of candy. Your druggist has EATONIC—50 cents for a big box, get a box from him today and if you are not satisfied he will refund your money.

EATONIC FOR YOUR ACID-STOMACH

WOMEN TO LEARN TEAM WORK NOW

Economic Questions in Which They Have Not Been Interested They Must Now Give Study

SENATOR WATSON IS JUBILANT

Considerable Credit Belongs to the Senator for His Astute Management of the Measure

Senator James E. Watson, United States senator from Indiana, and chairman of the Senate Woman Suffrage Committee, is jubilant at the success of the Republican party in putting through the federal suffrage amendment. Considerable credit belongs to the senator for his astute management of the measure on the floor, where it was fought by the opposition.

"The great block to woman suffrage has been the Southern Democrats," said Senator Watson. "The South unanimously opposes woman suffrage because they are afraid of the vote of the negro woman. States normally Republican have gradually conferred the right of suffrage on woman, and it was the vote of the West and the North that finally passed the measure through congress."

"What women want to learn in politics," continued the senator, "is organization, and to understand that each individual woman cannot have her way in everything pertaining to platform, nominations or the general work of the party. There must be team work. Men have learned that long ago. When women learn that and the power of organization they will be as strong as are the men."

"On the great moral questions they are ready to vote without campaigns of instruction or campaigns to create enthusiasm, for women's intuitions are swifter and keener than men's on ethical matters. The economic questions in which they have not heretofore been greatly interested they must now give study. There is no doubt that women are as intelligent and as quickly understand problems when they study them as men. I believe the enfranchisement of women will result in the betterment of American politics, and that the evils that beset us will be the more quickly disposed of and that the many perplexing problems of this hour will be safely and sanely solved by reason or the moral and intellectual influence of the women voters being added to that of the men."

"One thing the women voters must remember, however—it is a lesson the men have already learned. They have got to bury past differences in order to achieve present ends. The man you fought on an issue yesterday may stand with you on the question you are fighting today. Forget personalities and fight for principles."

MARINE STRIKE TO BE ENDED

New York, July 25.—Announcement of the settlement of the marine workers' strike was expected to be made today. Raymond B. Stevens, vice-chairman of the United States shipping board, who came here Monday, has had conferences with representatives of both the seamen and the operators and intimated that practically the only thing necessary to complete a compromise was the signatures.

BANDITS DRESSED IN NAVAL UNIFORMS

Three Auto Bandits Hold up 3 Mile House Near Ft. Wayne But Were Captured  
ENTER PLACE IN DAYLIGHT  
(By United Press.)

Fort Wayne, July 25.—Three auto bandits, dressed in naval uniforms, held up the Four Mile house, east of the city, this morning shortly after ten o'clock.

The place which is owned by Perry Conrad, is run as a general merchandise store. Conrad not being at home, the men asked Mrs. Conrad for some cookies. When Mrs. Conrad turned her back, the men attacking her cash register. After taking much cash, they filled the machine with canned goods.

They were caught two hours later at Van Wert, Ohio.

BARN BURNS: LOSS \$8,000

Columbus, Ind., July 25.—Henry Marr, a farmer east of Columbus, suffered the loss, by fire, yesterday, of a large barn and contents, valued at \$8,000. The flames are supposed to have resulted from spontaneous combustion.

SHIP QUERY IS ORDERED

Washington, July 25.—By unanimous vote, the house adopted a resolution providing for the appointment of a special committee to investigate activities of the shipping board and emergency fleet corporation with the view of determining how \$3,250,000,000 appropriated by the congress was expended.

Society

Mrs. Bert Heaton desires to meet the social committee and officers of the Mission Band, of the Little Flat Rock Christian church in the Sunday school room immediately after church Sunday morning.

Sixteen card tables were in session last night at the card party given on the lawn of the Catholic church. Everyone present enjoyed the evening playing euchre. Refreshments were served at a late hour.

Mr. and Mrs. Ralph Miles, Mr. and Mrs. Eli Martin, Mr. and Mrs. John Nipp, Mr. and Mrs. Scott Hosier, Mr. and Mrs. Ed Pitman and Mr. and Mrs. Charles Green formed a party last evening and motored to Greensburg where they took supper.

Members of the Grand Club were entertained yesterday afternoon at the home of Mrs. A. L. Riggs, in North Perkins street. After spending the hours socially the hostess served a delicious luncheon. Two

guests were present, Mrs. Sarah Henley and Mrs. Donald Moore of Findlay, Ohio.

Mrs. Olive Haywood delightfully entertained a number of her friends and relatives at a dinner party yesterday at her home in West Third street. The table was centered with a bouquet of summer flowers and covers were laid for Mr. and Mrs. J. O. Draper, Mr. and Mrs. Noah Moore and family, and Mrs. Elizabeth Nelson, all of Arlington; Mrs. L. T. Trew of Beaver City, Oklahoma; Mrs. Marian Harris, of Indianapolis and Mrs. E. M. Phillips and Lowell Phillips of Morristown.

A beautiful one o'clock luncheon was given in the Social Club rooms in North Morgan street today at noon, following the initiation of the three pledges to the Psi Iota Xi sorority at 10:30 this morning at the home of Miss Ruth Innis in North Harrison street. The girls initiated were the Misses Lois Reeve, Dorothy Mulno and Dorothy Sparks. The four course dinner was served on small tables, which were attractively decorated with blue and yellow candles and bouquets of summer flowers. Pretty place cards marked the places for twenty-eight

YOUNG FRIENDS IN SESSION

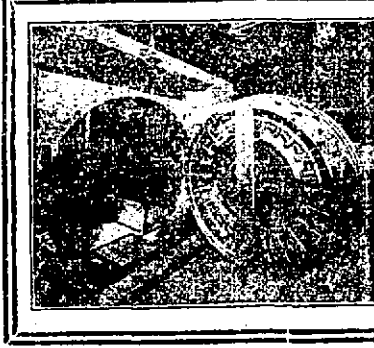

Richmond, Ind., July 25.—Youthful Quakers from all parts of the United States were arriving here today for the Tenth General Conference of Young Friends, which was to open today and continue until August 4.

The meeting will be held at Earlham college, and opened by David M. Edwards, president of the college. It will be attended by missionaries visiting here from Cuba, Jamaica and Africa.

guests, the honored guests being the Misses Lillian Bell, of Huntington, West Virginia; Thelma Blosson, of Indianapolis; and Rachel McGill, of Valparaiso, Ind. Favours of corsage bouquets were given each guest. Following the luncheon an entertainment was given, consisting of songs and readings.

Paris.—In recognition of the heroism displayed by the residents during the war, the British Distinguished Service Cross has been bestowed on the town of Dunkirk.

## NEBRASKA PROFESSOR GETS RARE DECORATION

M. M. Fogg, Instructor in Rhetoric  
at University of Nebraska Re-  
ceives French Honor

ESTABLISHED BY NAPOLEON.

(By United Press.)

New York, July 25.—Prof. M. M. Fogg, professor of rhetoric in charge of journalism in the University of Nebraska, who recently returned from service in the Army Educational Corps as director of the College of Journalism of the American Expeditionary Force University, Beaune, Cote d'Or, France, was decorated by the French Republic in recognition of his services as head of the college. The minister of public instruction, L. Lefevre, conferred upon him the Palmes Academiques, the officer d'Academie. This decoration, which was established by Napoleon in 1808, and which has been given to but few foreigners, is awarded in France to heads of universities and colleges and to professors attaining high distinction in science or letters.

In the College of Journalism, one of the twelve colleges of the A. E. F. University, with nearly 10,000 students and a faculty of 683,523 students registered in the seven courses. The faculty numbered seventeen, all practical newspapermen, three of whom were professors in American universities and fourteen

of whom were drawn directly from the army. Ten American and French journalists connected with the Peace Conference were secured to lecture to the students. As a part of their laboratory work the students issued "The American E. F. University News" a four-page weekly, which carried no advertisements. The U. S. Signal Corps furnished it radio service.

### Unshaken Testimony

Time is the best test of truth. And Doan's Kidney Pills have stood the test in Rushville. No Rushville resident who suffers backache, or annoying urinary ills can remain unconvinced by this twice-told testimony.

Harrison Levi, 931 N. Sexton St., Rushville, says: "I used to have to get up six or seven times each night on account of the too frequent passages of the kidney secretions. Often the secretions were scanty and pained in passage. I also had severe backaches. Nothing ever did me any good until I began taking Doan's Kidney Pills, which I got from Johnson's Drug Store. It didn't take them long to fix me up; the pains left and my kidneys again acted regularly."

OVER THREE YEARS LATER, Mr. Levi said: "I am glad to confirm my former endorsement of Doan's Kidney Pills, for they have given me a permanent cure."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Levi had. Foster-Milburn Co. Mfrs., Buffalo, N. Y.—(Adv.)

## COLLEGE YOUTH IS SOME PUGILIST

Carl Broadley of Drake University  
is in Training and Promises to  
Show Well

HIS HOME IS IN TEXAS

In a Year With Hard Training his  
Manager Says He Will Meet  
Dempsey

By H. C. HAMILTON  
(U. P. Staff Correspondent.)

New York, July 24.—Drake university, Des Moines, Ia., is about to set a new record in pugilism.

You can count back as far as you like, but you will be unable to find in the history of fistieuffs any mauler who ever attained any greatness who got his schooling within the walls of a university. Now, Drake students are out to batter that record into small pieces through the presentation to the world of Carl Broadley.

Broadley is a delicate youth of six feet, four inches, and 246 pounds. His home is in Texas, where they make 'em decidedly rough, and he wants to fight for a living—rather a high-flung ambition for a mere collegian, since box-fighters have begun to make millions in the game.

Off-seasons, young Broadley slays and rounds up steers, whips the country-side, and trains for football.

Coach Mark Banks, old-time football star, believes the youth he is training daily in the Drake gymnasium can take the measure of Jack Dempsey. He declares that in spite of his size Banks is faster than any heavyweight the world ever has seen, and in this class he places the new champion, even in spite of the things Jack has been doing to championship aspirants for many a day.

Banks probably hasn't given much thought to how hard the big boys fall when they stop wallops with their chin from fists carrying the weight of a Dempsey, but he can be excused for that if he really thinks he has mearched a champion, for champions are practically as good as a young mint nowadays.

"Broadley isn't championship material right now," Banks said in Des Moines, "but proper handling within the next year will bring him around. I believe a session on the gridiron this fall will harden him a bit and make him a greater boxing possibility."

"The big fellow is just crazy to fight, and you can bet he's going to exhibit around here this winter."

### BUILD 2 GIGANTIC LINERS

50 Feet Longer Than Leviathan With  
Speed of 30 Knots

(By United Press.)

Washington, July 25.—Two gigantic ocean liners, the swiftest and largest, are being built by the United States shipping board. Each vessel is designed for speed of 30 knots making it possible to cross the Atlantic in less than four days, the board said. They will measure 1,000 ft. in length, 50 ft. longer than the Leviathan now the largest vessel afloat.

## The Hupmobile Kind of Satisfaction

THE record of Hupmobiles owned here reveals a very significant thing. It shows that a trifle under 50 per cent of our sales are made to people who have driven the Hupmobile before.

Many of them now have their second Hupmobile; some of them, their third and fourth.

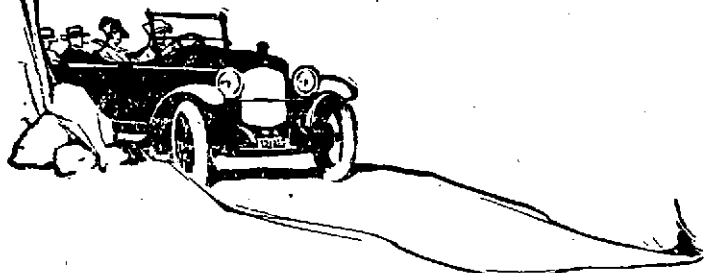

To our mind there can be no stronger testimonial as to the service the car actually yields—its unusual economy and its extraordinary performance.

If you are looking for the kind of satisfaction that makes a man willing to repeat his experience, not only once but two or even three times, all we ask is the chance to demonstrate the Hupmobile for you.

JOE CLARK

### CAN A TOWN BE BRAVE?

By CARL A. RANDAU

(U. P. Staff Correspondent.)

Paris (By Mail)—Has a city a personality? Can a town be brave? The French Government has answered these questions in the affirmative.

France has rewarded a number of towns and cities for their bravery during the present and former wars. Paris, itself, has recently been granted the Croix de Guerre. Now the town of Bitch, out in Alsace-Lorraine, has been added to the list of the brave by being cited for the Cross of the Legion of Honor, the present reward being made for the town's service nearly fifty years ago before it was torn away from France.

The first recognition of the bravery of cities was recorded in 1815 when Napoleon, during the hundred days, issued a decree authorizing the cities of Chalons-sur-Soane, Tournus and St. Jean-de-Losne to place the Eagle of the Legion of Honor on the coat-of-arms of the three communities for their brave conduct during the campaigns of 1814.

Until 1864 no more cities were accorded war honors. Then in that year Rouanne was decorated. After 1870 the list became longer and included successively Chateaudun, Belfort, Rambervillers, St. Quentin, Dijon, Paris, Bazellies, Lille, Valenciennes, Landreche, St. Dizier and Peronne. In 1916 the historic city of Verdun was added to the list of Legion of Honor recipients.

Bitch, the latest recipient, has for fifty years been under German domination. The sacrifice and bravery of the town in the dark days of the Prussian invasion of 1870 won the coveted honor.

Proper cultivation of corn now means fewer weeds and easier work later.

## INSPECTORS MUST NOT BE TWICE PAID

Jesse Eschbach States This is Flagrant Violation of the Statutes of Ind.

### LETTERS SENT OFFICIALS.

Reports Show That Contractors Received Excessive Amounts for Incompleted Highways

Jesse Eschbach state examiner of the board of accounts, in letters addressed to county officials yesterday called a halt on the practice of highway inspectors employed by the county receiving additional compensation from road material firms or associations.

"This is a flagrant violation of the statutes of Indiana, criminal in its nature," the letter declared.

In the second letter sent by the board to county and township officials, attention is called to the discovery that in some counties contractors are allowed payment for more than 80 per cent of the work done. Mr. Eschbach said that several instances had been called to his attention by field examiners where counties had paid contractors for material on hand and then later the contractor failed to complete the road, being let out of the contract by the 1919 contractors' relief law. The counties that violated the law in making the payments now have this material on their hands and much of it is in a depreciated condition, Mr. Eschbach said.

"Our field examiners report," the letter referring to the employment of road inspectors reads, "that inspectors on improved highways throughout Indiana, appointed and paid by the several jurisdictions constructing such highways, are being paid an additional remuneration by certain persons, firms and corporations interested in said improvement."

"This is a flagrant violation of the statutes of Indiana, criminal in its nature."

"No public official nor board has any legal or moral right to pay any inspector from public funds if such inspector is being paid by any other person, firm or corporation for said duty of inspection."

It will be our duty to charge to the official or board making such payment any amount so paid.

"Unless stopped, it will be necessary to call the practice to the attention of prosecuting attorney throughout the state for such steps as they may deem necessary."

The letter relating to the excess payments on road work follows.

"Our attention has been called to a practice prevailing in a number of jurisdictions in Indiana whereby boards of county commissioners, upon the engineer's estimate, are allowing payment of not 80 percent of the work done but are allowing payment for 100 per cent of the work done."

"All field examiners of this department will be instructed to pass only an allowance for 80 percent of the work done, and under no circumstances will payment be allowed for any material purchased, but not used, nor for any amount for work

## Public Sale of 159-Acre Farm AT AUCTION

I, the undersigned will sell at Public Auction, 159 acres, known as the late Cyrus W. Ball Farm, located 7 miles northwest of Rushville, four miles northeast of Arlington, one mile west of Henderson, one mile south of Farmers Station.

Auction to be held at No. 1 School House, Posey Township, Rush County, Indiana:

**Wednesday, August 6, 1919**

SALE TO COMMENCE AT 2:00 O'CLOCK P. M. Described as follows:

East one-half of northeast quarter, less school house ground, 79 acres, and east one-half of southeast quarter, 80 acres, Section 8, Township 14 north, Range 9 east.

### Two Farms

You will note from this description that this is a long quarter section that can be divided, one farm of 80 acres and one of 79 acres; about 10 acres timber, and deep well on each; both laying on gravel roads, close to elevator and shipping points, churches and schools, and under high state of cultivation; every acre level, well ditched and clear of stumps; sugar tree and burr oak land. There is a fine stand of young clover on 46 acres, as clover has always been rotated with corn and wheat. Possession given September 1st, including one-half of 66 acres corn, to be gathered, and 23 acres of clover for seed, subject to all rights of present tenant.

### Terms of Sale

Ten per cent of purchase price to be paid at sale on contract signed by parties. Balance to be arranged for within ten days. Twelve months' time with interest at 6 per cent on one-half purchase price, or all cash as desired.

**MRS. SARAH E. BALL**

A. L. GARY, Attorney.

## The Anker-Holth Cream Separator

is the only Separator on the market that has a SELF BALANCING BOWL and has no lead or soft solder on the inside in order to perfect a BALANCE, which you will find in other makes of Separators. The bowl is guaranteed to stay in balance the life of the machine. The Bowl is Self-Balancing which makes it non-freezing in cold weather. It is easy to turn and easy to clean, and can be washed in one-half the time you can wash any other Separator.

The Anker-Holth has no oil holes or feed cups. It is oiled by an up-to-date oil system; you only put oil in every 60 or 90 days. The ANKER-HOLTH will skim closer than any other Separator on the market today, which has been proven by tests with other leading Separators and tested by the Babcock cream tester. It is the only Separator with a dirt chamber that removes all impurities from the whole milk before it enters the discs for cream separation.

**The Anker-Holth is a High-grade Separator at a Medium Price.**

FOR SALE BY  
**John B. Morris**  
114 W. Second St. Hardware Phone 1064

done except the 80 percent provided by statute.

"The practice for allowing for material purchased or for more than 80 percent of work done should stop at once."

"We thank you for your co-operation in this matter."

### County News

#### Orange

Mrs. Florence Kennedy of Indianapolis is spending the week-end with her mother, Mrs. Sarah Sipe.

Mr. and Mrs. Thomas Matney spent Wednesday morning in Rushville.

Albert Armstrong of Connersville was the guest of his parents over the week-end.

"Your Money's Worth or Your Money Back"

**Dowagiac Steerable One-Horse Disc**

The front wheel is a caster wheel permitting a short turn without lifting the drill and making steering between crooked rows easy.

The feeds are chain-driven from the axle of the two rear wheels which have ratchet hubs making both wheels drivers.

The Dowagiac five disc is self-guiding. It trails so perfectly that when the horse is driven midway between the corn rows the driver need not touch the handles and at the ends of rows the drill follows the horse in making the short turn. Each disc has independent up and down motion with spring pressure—the only way for uniform depth on uneven ground. With the convenient lever all discs are lifted when turning or transporting the drill to and from the field.

COME AND SEE THEM BEFORE YOU BUY.

BEAVER BOARD  
FOR BETTER WALLS & CEILINGS

Why Live with Cracked Walls and Ceilings  
When They're Easily Covered Up

Beaver Board will cover them up for all time and you'll never have the job to do again. While Beaver Board is doing away with the danger of falling plaster it is covering up old dingy wall paper on walls and ceilings and giving you an ideal surface for painting and decorating.

Many an old homestead has been revived with this knotless, crackless manufactured lumber. Room after room has been made over—one at a time if you please—without muss or litter. Beaver Board is real lumber. It is built up into large panels from the strong, pure fibres of the spruce tree. Each panel is treated with the patented Sealite process which prevents warping. If you need to build or re-build, restore or enlarge ask us how you will profit by using Beaver Board.

DEVIL DOGS OR U. S. MARINES

Young men of desirable age are particularly desired for service with the U. S. Marines. Men desiring information in regards to enlistments will please apply to Postmaster, Rushville or write to Marine Recruiting Office for full information, 157 N. Illinois St. Indianapolis, Ind. 1131f.

To have your automobile look dressed up for Sunday take it to "Bob" at Joe Clark's garage and let him wash and polish it. 1131f.

NOTICE

Having completed our eighth successful year as dealers in Overland automobiles for Rush Co. we have decided to retire from the business and not renew our contract. Therefore having discontinued our business, to take effect Aug. 1st, it is necessary that we collect all our accounts before that date and those knowing themselves to be indebted to us will kindly call and settle before that time. Until Aug. 1st we will give 10 percent discount on tires, tubes and accessories. JONES & JOHNSON 1131f.

7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keen mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

FASCINATING TEETH

How Every Woman Can Quickly Charm Her Friends With Lovely Teeth, Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time.

And the cost is so little. Just go to any drug or department store, and get a large tube of SENRECO TOOTH PASTE for 35 cents.

Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of Pyorrhea and banish acidity in the mouth.

It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

OLD TIMERS ARE  
STILL YOUTHFUL

Most Athletics the Youth Plays an Important Part But Even at That There are Some Who are Old.

OLD AGE BEGINS AT 30.

New York Giants Don't Have a Single Infielder Under 30 and the Younger Ones are on the Bench

By H. C. HAMILTON  
(U. P. Staff Correspondent.)

New York, July 25—It was clearly demonstrated a short time ago in a ring at Toledo, Ohio, that "youth must be served," but let's see if it really must.

Athletics, as a rule, in every line of effort, are about the same, so far as supremacy of youth or age is concerned. We find ball players passing out of the limelight at an age that strikes a fairly good average at 30 years; fighters drop hard after they have gone by that mark; runners, old vaulters, football players—practically all who strive to amuse the public by athletic prowess with away as age creeps on them.

But there are exceptions to the rule. There are the Giants, for instance. Aged, decrepit, they have been called, yet the men led by John J. McGraw have set the pace for the National league practically infielder on the club under 30. The pitching staff is composed of veterans for the most part. George Burns and Benny Kauff have far too many years over their heads to be placed in the chicken class. The youngsters of the club are the chaps who are holding down bench positions, rather than the aged ones.

This club, it has been promised by many an expert, will crack in the dog days. But will it? It certainly is traveling at a fine clip now and shows small signs of cracking.

Then we have Dick Reiser. If you never saw Dick Reiser do a walking race you have missed a great sight. Dick has been winning walks for so long he can do it with his eyes shut and lead in his shoes. He walks around the youngsters. There isn't a man in the nation who can approach his form and speed when he is right. George Goulding is the only man on the track he has any great respect, for and Goulding has been making walking records for a good many years himself.

And then there is Jack Britton, who was defeated for the welter-weight championship by Ted Lewis. Britton is past 35 and is a better batter now than at any time in his career.

Pop Geers, who is so old he has quit counting, is still driving winning races on Grand Circuit tracks.

Doc Rolier, who was considerable shucks as a wrestler before most of us knew what a rattle was, is still pinning shoulders to mats.

Youth will be served, of course, in most ventures, but age also has its fling in many cases, and don't forget it.

# TELLS OF LIFE ON A BIG DIRIGIBLE

Correspondent Gets Permission to  
Board The R-34 and Finds it  
Interesting

MADE WITH ALUMINUM

It is 640 Feet Long and Has Accommodations Equal to That of Any Ocean Liner

By W. R. HARGRAVES  
(U. P. Staff Correspondent.)

New York, July 25.—"The British never break a promise." This statement by Commander C. H. Scott, of the British Dirigible R-34, explained my visit to the interior of the giant airship during her stay at Mineola. Only two male civilians boarded the ship for inspection and my permission to do so was granted as the result of a promise made on the first day of her arrival.

Thus it is possible for the United

Press to give the first details of the living and working accommodations on the aircraft as seen through a landsman's eyes.

In spite of what may appear to be hardships and discomforts, perils and privations there were none of the thirty members of the crew who failed to express the same admiration for her that is felt by those who have become accustomed to travel on certain steamships.

"Of course the quarters are rather cramped and the conditions under which we live are unusual," said Lieut. R. D. Durrant, the radio operator, "but it is a splendid thing to feel that one is part of a new transportation development—and then, too, it is our duty to our country to further her interests.

This is the spirit that kept the officers and crew cheerful during their 108-hour trip westward, when weather conditions of unprecedented violence and atmospheric changes of unusual variety made life on the dirigible anything but rosy.

One of the greatest drawbacks to life on the R-34, perhaps is the lack of space in which to exercise. Although there is a "board walk" 600

feet long, running the length of the ship along its keel, this is only 9 inches wide and as I walked, it cat-like, I could not help wondering what might happen if some of the crew took an overdose of the rum ration allowed all members of the British navy, on sea or in air, and tried to walk it off.

Before boarding the ship, which was constantly in motion through the action of the wind, although held down by hundreds of men, my shoes, hat and all matches were taken from me. This was to prevent the danger of creating sparks through friction from the nails in shoes. The removal of my hat was no doubt to prevent me dashing after it should it be blown off. A step over the side of the 9-inch walk would land one on the thin linen fabric which covers the aluminum frame, thence through it into the thin air below.

The dirigible is about 640 feet long and is cigar shaped. The framework is of massive aluminum girders welded together similar to the structural frame of a steel skyscraper. This frame is covered with prepared linen, like that used on airplanes, and within the body thus formed are the sixteen "gas" bags, sleeping quarters, petrol tanks, water ballast and drinking water. The navigating quarters and engines are in the gondolas which hang below.

The petrol tanks which supply fuel to the engines by gravity flow, are located beside the narrow walk and are held by clutches like ice tongs, which can be quickly opened to drop the tanks overboard if necessary.

On either side of the narrow walk are hung fine-spun hammocks strung from cross bars of the aluminum frame. If one of the air-gobs or officers should become restless in sleep and roll out, he would fall through the fabric which encases the frame, and make a swift descent to land or sea. Tied to each hammock is a deflated rubber life preserver and a silken parachute. In case of a great emergency, as fire, or imminent destruction through other causes, the life belt is inflated and the parachute hooked to a ring in a rope belt always worn. To make a safe exit, thus prepared for descent, the wearer must jump upon a circle in the linen fabric which has been cut out and replaced, held by a soft gun. This gives way, and permits him to fall through, leaving a clean, round opening instead of a tear.

These "ports" are located just beneath the aluminum petrol tanks, of which there are 81, each weighing 500 pounds and each containing 70 gallons. Sixteen of them are fixed and the remainder are called slip tanks. Should occasion require rapid ascent or immediate decrease of weight for flight, the slip tanks are released from their fastenings and drop on and through the holes.

The only light in the living quarters is that which filters through the green-painted linen, an uncertainty and continual gloom or dusk. At night hand electric lights are used and when the watches are changed, every four hours, these lights are used to signal the approach of one of the crew along the walk should another member be coming from the opposite direction. There are no turn-outs on this narrow-gauge walk.

Amidships is the "dining hall" or "grand salon," or whatever a facetious officer may choose to call it. It is simply a widening out of the walk, the floor space at that point measuring about 10 by 15 feet. Here there are six hinged tables and a tiny washstand, also three tanks or distilled drinking water, each containing seventy gallons.

At mess time half of the crew off duty can squeeze into this space and eat their prepared and previously cooked food, buffet style. There are no chairs on the ship. Roasts, stews and potatoes, a limited variety of vegetables, coffee or cocoa comprise the meals. They are heated when wanted on appliances attached to the engine exhaust pipes. Obviously there is no after-meal cigar or cigaret enjoyed aboard.

One can stand upright traversing the length of the ship except near the bow and stern, here the gas bags are nearer the bottom of the huge envelope. There are eighteen hydrogen gas compartments within the shell, with a capacity of 2,000,000 cubic feet. Forward and aft there is a long, perpendicular ladder, extending upward between bags and reaching to the roof. The observer is obliged to scale this narrow and wiggly aluminum affair whenever he wants to "take a shot" at the sun in making observation. I got half way up but the gas fumes, increased by the fact that the Blimp was being held to earth, forced me down precipitately in utter disregard to the dents made in the soles of my stocking-feet by the sharp metal rounds of the ladder.

In the extreme stern, modern sanitary arrangements are arranged. Hanging below the bag are four "gondolas", or cars, one under the bow; two, side by side, amidship, and one under the stern. The forward gondola contains the "bridge" and chart room and navigators' headquarters, as well as the wireless room and forward engine.

The navigating and pilot room, about six feet wide and ten feet long is the last word in completeness of navigation appliances. By means of speaking tubes and bells, all parts of the ship are controlled from this room. It is through this room that the ship is boarded from the ground access above being via another aluminum ladder.

The two gondolas amidships, reached from the "envelope" by small ladders, each contain a single engine worked by two men. The after gondola has two engines and one propeller.

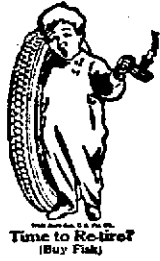

When the R-34 silently nosed her way on to the field at Mineola, there were comparatively few to receive her, the landing crew having been rushed 100 miles away to where it was believed she would be forced to land. She hovered around, however, with an almost human appearance of hesitancy, as though she were looking for a comfortable place to lie down. Finally, after circling a few times, coming lower by ejecting water ballast and through manipulation of her elevating and steering rudders, she slowed down near the spot chosen and heaved an anchor overboard, for all the world like the Leviathan coming to a stop in New York bay. She then winched herself down to an elevation that permitted the ropes dangling from her to be grasped by a hastily collected "landing party" of more than three hundred men.

One feature of the mammoth airship that seemed to impress many of the thousands who saw her, was the peculiar silence which seemed to mark her departure. This silence, of course, did not apply to the throngs, but to the monster, as she gracefully and majestically raised her head and slipped swiftly upward and away into the night.

First on the Lines!

"No more I rub  
With all my might,  
N. R. G. makes  
My clothes snow white.

"I beat my neighbors  
Every Monday  
They all think I  
Wash on Sunday."

(Original lines sent by Mrs. D. H. Harbort, Liberty Lake, Wash.)

WHY DON'T YOU TRY

Take the "RUB" out of Wash Day

N. R. G. removes every particle of dirt and foreign substance, and leaves the clothes spotlessly clean, absolutely WITHOUT RUBBING or exertion. Will remove perspiration, ink, blood, dust and fruit stains almost instantly. Does a week's washing in 10 to 20 minutes.

Will not injure clothes or hands

N. R. G. is made of harmless ingredients and does not contain paraffin, lye or any other injurious chemical. Leaves the hands soft and white. Saves half your soap! One package enough for 5 big washings.

## When Feeding Hogs

Have you tried  
SWIFT'S TANKAGE?

Practically every one of the county's biggest hog raisers are now feeding it.

If these men think enough of Swift's Digester Tankage to feed it the year round, is it not worth your while to give it at least a trial?

Judging from results, you will find it to be the best and cheapest of all hog feeds.

Corn and other farm grown feeds and Swift's Digester Tankage make an ideal ration for hogs.
